Okay, they would be permitted to complete a 20% reduction of the trees canopy and remove and dead limbs with ecological approval. Tree works wise, I am happy with concerns raised and a sensible solutions.

I am not sure of the landowner? You require the landowners permission by law. Has this been looked into?

Thanks
Andrew

Morning,

I am aware of this case as it has been presented several times, can you send the the full document for approval please? I have no issues with a reduction of up to 20%, but I am wary of who the landowner is and what specific details the requesters would like to achieve.

I cannot access the application for some reason.

Thanks
Andrew
