

INTERNAL MEMORANDUM

To: Gareth Davies - Development Control Case Officer

Reference: P/25/0319

From: Planning Policy and Implementation Section

Ask for: David James

Extension: 7053

Date: 5th January 2026

Summary

No objection raised. The development meets the relevant Replacement LDP policies (SW4, SW13 & EcW2).

Particular consideration should be given to the impact of the intensification of the industrial/commercial use, and subsequent traffic movements, on local amenity and highway safety (Policies SW11 & EnW4).

If minded to approve in principle, consideration should also be given to the impact of the development on the character of the area and parking provision, the impact on biodiversity and Heritage assets, and any other relevant risks to public health and safety (Policies SW11, SW12, CW1, EnW1, EnW2, EnW3 & EnW4).

Observations in respect of the above development

1. Proposed Development

An application for the erection of two adjoined industrial units, at Woodingtons Garage, Triangle, Cefn Coed, Merthyr Tydfil.

2. Development Plan Framework

The existing development plan framework in Merthyr Tydfil is provided by:-

The Merthyr Tydfil County Borough Council Replacement Local Development Plan (2016 - 2031)

The relevant LDP Objectives are:-

- *LDP Objective 1 Sustainable Population Growth: To encourage a sustainable level and distribution of population growth.*

- *LDP Objective 2 Welsh Language and Culture: To protect and enhance Welsh language and culture.*
- *LDP Objective 4 Regeneration: To promote the suitable reuse of previously developed land and the continued regeneration of local communities.*
- *LDP Objective 6 Sustainable Design: To promote high quality, sustainable and inclusive design and support measures which mitigate the predicted effects of climate change.*
- *LDP Objective 7 Transport: To support an integrated transport system, promote active travel and ensure new developments are accessible by walking, cycling and public transport links.*
- *LDP Objective 8 Community Facilities: To support existing community facilities and suitable community led development.*
- *LDP Objective 9 Heritage and Cultural Assets: To protect, enhance and promote all heritage, historic and cultural assets.*
- *LDP Objective 12 Economic Development: To provide and safeguard appropriate land for economic and skills development.*
- *LDP Objective 14 Town and Local Centres: To develop the town and local centres as accessible, attractive, viable and vibrant places.*

The following development plan policies would apply:-

- *Policy SW4: Settlement Boundaries*
- *Policy SW9: Planning Obligations*
- *Policy SW11: Sustainable Design and Placemaking*
- *Policy SW12: Improving the Transport Network*
- *Policy SW13: Protecting Community Facilities*
- *Policy CW1: Historic Environment*
- *Policy EnW1: Nature Conservation & Ecosystem Resilience*
- *Policy EnW2: Internationally and Nationally Protected Sites and Species*
- *Policy EnW3: Regionally Important Geological Sites, Sites of Importance for Nature Conservation, Local Nature Reserves and Priority Habitats and Species*
- *Policy EnW4: Environmental Protection*
- *Policy EcW2: Protecting Employment Sites*
- *Policy EcW5: Town and Local Centre Development*

The following supplementary planning guidance is applicable:-

- *Merthyr Tydfil Local Development Plan Supplementary Planning Guidance Note 2: Planning Obligations (March 2012)*
- *Merthyr Tydfil Local Development Plan Supplementary Planning Guidance Note 4: Sustainable Design (July 2013)*
- *Merthyr Tydfil Local Development Plan Supplementary Planning Guidance Note 5: Nature and Development (May 2015)*

National Planning Policy

Planning Policy Wales (Edition 12, February 2024)

Planning Policy Wales provide guidance on matters relevant to this application, namely:

- **Placemaking in Action: Good Design Making Better Places**
- **Strategic Placemaking: Previously Developed Land**

- Activities in a Place: Retail and Commercial Development
- Activities in a Place: Community Facilities
- Economic Infrastructure: Economic Development
- Recognising the Special Characteristics of Places
- Recognising the Environmental Qualities of Places

Future Wales: The National Plan 2040 (February 2021)

Future Wales provides guidance on matters relevant to this application, including, but not limited to:

- Policy 1: Where Wales will grow
- Policy 2: Shaping Urban Growth and Regeneration – Strategic Placemaking
- Policy 33 – National Growth Area – Cardiff, Newport and the Valleys

3. Policy Considerations

The application site is commercial unit located within the Primary Growth Area and settlement boundary where new development can be considered acceptable in principle (LDP Policy SW4) subject to proposals being compatible with the Plan's other policies and all other material considerations.

Policy SW9 considers the requirement for planning obligations. Due to the nature of the development, a financial contribution to affordable housing would not be sought. Additionally, Community Infrastructure Levy (CIL) would not be chargeable.

Policy SW11 advises that development must contribute to the creation of attractive and sustainable places through high quality, sustainable and inclusive design. Where appropriate, new development will be required to (amongst other things):

- be appropriate to its local context in terms of scale, height, massing, elevational treatment, materials and detailing, layout, form, mix and density;
- integrate effectively with adjacent spaces, the public realm and historic environment to enhance the general street scene and create good quality townscape;
- not result in an unacceptable impact on local amenity, loss of light or privacy, or visual impact, and incorporate a good standard of landscape design;
- allow access for the widest range of people possible, and demonstrate that any traffic movements will not have an unacceptable impact on local amenity or highway safety and satisfy the Council's parking standards.
- provide adequate facilities and space for waste collections and recycling.

Considering the nature of the development, and the location of the site (in close proximity to existing residential and commercial uses) consideration should be given to the above issues

The proposal would intensify the industrial/commercial use at the site, with potentially two new businesses/activities being introduced. Given that it would be located in a residential area, the impact of the development on local amenity, in terms of noise and loss of privacy

should be particularly considered. It is noted that the proposed units are relatively small, and are comparable to a potential extension of the existing building/activity.

The impact of the addition of the additional units on the character of the area should also be considered, with reference to their scale, height, massing, elevational treatment, and materials, and whether they integrate effectively with adjacent spaces, the public realm and historic environment to enhance the general street scene and create good quality townscape.

Furthermore, the impact of the resulting increased vehicle movements on highway safety and local amenity should be particularly considered, and the proposed parking provision should be checked against the Council's current parking standards. The views of the Engineering and Traffic Group Leader and Public Health Manager should be sought in respect of the above.

Policy SW12 supports development that encourages a modal shift towards sustainable transport, including the enhancement of pedestrian, cycle, rail and bus facilities, in addition to any necessary road improvements. Developments will be expected to demonstrate how they reduce the need to travel and encourage the use of sustainable transport. As such, the views of the Engineering and Traffic Group Leader should be sought in this respect.

Policy SW13 states that the provision of new and enhanced community facilities will be supported subject to satisfying other relevant LDP policies. And that the Council will protect and support the enhancement of the County Borough's existing community facilities. Development proposals that would result in a loss of an existing community facility will only be permitted where:-

- alternative provision of at least equivalent value to the local community can be provided nearby, or
- it can be demonstrated that existing provision is inappropriate or surplus to the needs of the community and is no longer required, or
- it can be demonstrated there is no longer a viable community use for the facility.

The proposal would expand, and thus enhance, the activities at an existing community facility. Therefore, it would be in accordance with Policy SW13.

Policy CW1 advises that the integrity of our historic environment assets will be conserved and enhanced. Development proposals will only be permitted where it can be demonstrated they would preserve or enhance the architectural quality, character or the historic or cultural importance of our designated historic environment assets. And that, development affecting undesignated historic environment assets including, Locally Listed Buildings or structures, Landscapes of Outstanding Historic Interest in Wales, Urban Character Areas and Archaeologically Sensitive Areas should have regard to their special character and archaeological importance.

The site is located within a Landscape of Outstanding Historic Interest in Wales. As such, this, and any other relevant, historic environment assets should be taken into consideration, and the views of the relevant Officer or external Heritage body sought in this regard, as appropriate.

Policy EnW4 advises that development proposals will be required to demonstrate they will not result in an unacceptable impact on people, residential amenity, property and / or the natural environment from either:

- Pollution of land, surface water, ground water and the air;
- Land contamination;
- Hazardous substances;
- Land stability;
- Noise, vibration, dust, odour nuisance and light pollution; or
- Any other identified risk to public health and safety.

Where impacts are identified the Council will require applicants to demonstrate that appropriate measures have been incorporated to reduce, or minimise the impact identified to the lowest possible acceptable level. Planning conditions may be imposed or legal obligation entered into, to secure any necessary mitigation and monitoring processes.

Policy EcW2 states that at existing employment sites and premises outside the sites identified development proposals for non B-class uses that would result in the loss of the employment land / premises will be permitted where it can be demonstrated that the existing use is inappropriate or the land / premises are surplus to the requirements of the employment market.

The policy also affords some protection to existing employment sites and premises outside the identified existing employment sites where development proposals for alternative uses will be permitted provided it is demonstrated the existing use is inappropriate or the site or premises is no longer viable. As recommended in the Council's Employment Land Review, this will protect an important supply of smaller sites and premises across the County Borough and office uses in the Town Centre whilst allowing sufficient flexibility where alternative uses can be justified.

The proposal is located outside of an existing employment site, but does contain a use which is considered a B Class Use (or a closely-related *sui generis* use). The proposed development would result in two additional small, adjoining industrial units on the site. As such, the proposal would be in accordance with Policy EcW2.
