Notes:

Whilst every reasonable effort has been taken to correctly record the pipe material of DCWW assets, there is a possibility that in some cases pipe material (other than Asbestos Cement or Pitch Fibre) may be found to be asbestos cement (AC) or Pitch Fibre (PF). It is therefore advisable that the presence possible of AC or PF pipes be anticipated and considered as part of any risk assessment prior to excavation.

Dak-Carr (UK) Ltd (the Company) processes the information as to the position of its underground apparatus in any way of general or specific nature and only in so far as it is based on the knowledge of its whereabouts and its necessity as to its consequences in relation to the event of a excavation or other works made in the vicinity of the company's apparatus. The Company does not accept any responsibility for damage to any apparatus or other property which may be damaged by the Company, in so far as it accordance with statutory requirements of sections 193 and 199 of the Water Industry Act 1991 and the Water Industry (Safety of Excavations) Regulations 1992, in particular, as to the safety of the general public. In this foregoing, it should be noted that the records that have been made by the Company may not be accurate as to the exact position of any apparatus or other property. It is the responsibility of the excavator to make a full and accurate record of any apparatus or other property that may be damaged or destroyed as a result of an excavation or other works. The Company will not be liable for any damage or loss that may be suffered by any person as a result of the furnishing of this information or any damage or loss that may be suffered by any person as a result of the furnishing of this information without the prior permission to the provision of the New Roads and Street Works Act 1991 and the Water Industry Act 1991.
