

# INTERNAL MEMORANDUM

To: Kate Glover  
From: Matt Davies (Ecologist)  
Ext: 5278  
Memo number: 1  
Date of previous memo: -  
Date: 13/02/2025

**SUBJECT: P/25/0032 | Solar Panels to main roof | Cambrian House Bethesda Street Merthyr Tydfil CF47 8LN**

## SITE DESCRIPTION

Public House building within residential area. Nearby habitat includes garden habitat, grassland, scattered trees, woodland pockets and wooded river corridor.

## PROPOSED WORKS AND POTENTIAL IMPACTS

See table below.

| Proposed works            | Works likely to impact protected species (if present) |
|---------------------------|-------------------------------------------------------|
| Solar Panels to main roof | Yes (roosting bats)                                   |

## DESIGNATED SITES WITHIN 500M OF THE APPLICATION SITE

- ✓ Sites of Importance for Nature Conservation (SINC): x1 (Afon Taf, c.120m from site)
- ✓ Within a Buglife B-Lines Area

## PRIORITY AND PROTECTED SPECIES WITHIN 500M OF THE APPLICATION SITE

- ✓ Birds (including Schedule 1<sup>1</sup> and Section 7<sup>2</sup> species);
- ✓ Fish (including Section 7<sup>2</sup> species);
- ✓ Invertebrates (including Section 7<sup>2</sup> species)
  - ✓ Marsh fritillary butterfly (Section 7<sup>2</sup> species), closest record c.1301 from site;
- ✓ Mammals
  - ✓ Bats (European protected species<sup>3</sup>; some Section 7<sup>2</sup> species) - closest roost record for unidentified bat species, c.199m from site);
  - ✓ Otter (European protected species<sup>3</sup>; Section 7<sup>2</sup> species) – closest record, c.51m from site;
  - ✓ Hedgehog (Section 7<sup>2</sup> species);
- ✓ Amphibians
  - ✓ Great crested newt (European protected species<sup>3</sup>; Section 7 species) - closest record c.199m from site);
  - ✓ Common toad (Section 7<sup>2</sup> species);

## REQUIREMENTS

A Preliminary Roost Assessment (PRA) for bats and nesting birds of the site (undertaken by a suitably qualified and experienced ecologist) is required. This must provide sufficient information for the local planning authority to assess any potential adverse impacts of the proposed development on priority and

<sup>1</sup> Wildlife & Countryside Act 1981 (as amended)

<sup>2</sup> Environment (Wales) Act 2016

<sup>3</sup> Conservation of Habitats and Species Regulations 2017 (as amended)

protected species and/or habitats, or to identify what further information is required before a full assessment is possible.

The results of the PRA will be used to inform whether further surveys are required, or to establish the need for and extent of any mitigation and compensation measures required as part of the proposed development.

A BARB+ data search required from SEWBRcC.

There will need to be enhancement of the site in line with the Environment (Wales) Act 2016.

Planning Policy Wales (PPW 12), Chapter 6 must be considered where relevant to this application.

The main elements of the policy (that are or may be relevant to this application) are as follows:

- *GREEN INFRASTRUCTURE: stronger emphasis on taking a proactive approach to green infrastructure, the submission of a proportionate **green infrastructure statement** [GIS] with planning applications and signposting Building with Nature standards.*
- *NET BENEFIT FOR BIODIVERSITY AND THE STEP-WISE APPROACH: further clarity is provided on securing net benefit for biodiversity through the application of the step-wise approach, including the acknowledgement of off-site compensation measures as a last resort, and, the need to consider **enhancement and long-term management** at each step. The use of the green infrastructure statement as a means of demonstrating the stepwise approach is made explicit. A simplified diagram of the policy approach has been developed (included within PPW12). The importance of strategic collaboration to identify and capture larger scale opportunities for securing a net benefit for biodiversity is recognised.*
- *PROTECTION FOR SITES OF SPECIAL SCIENTIFIC INTEREST: strengthened approach to the protection of SSSIs, with increased clarity on the position for site management and exemptions for minor development necessary to maintain a 'living landscape'. Other development is considered unacceptable as a matter of principle. Exceptionally, a planned approach may be appropriate where necessary safeguards can be secured through a development plan*
- *TREES AND WOODLANDS: closer alignment with the stepwise approach, along with promoting new planting as part of development based on securing the right tree in the right place.*
