

The Construction
(Design & Management)
Regulations 2015

From April 2015 the Construction
(Design & Management) Regulations
apply to domestic work.

The Construction (Design &
Management) Regulations 2015 place
duties upon the householder as the
client for work to their own dwelling.

The householder must ensure there
is an adequate budget for the project
to comply with the Regulations, and
adequate time to plan, mobilise and
construct the works.

The householder must ensure that
adequate welfare facilities are provided
for the workers.

Where 20 or more workers are employed
for more than 30 working days, or where
the project exceeds 500 person / days,
the project must be notified to the HSE
using form F10.

The householder must appoint a
Principal Designer. The appointment
should be in writing. The Principal
Designer may change throughout the
project.

The householder must appoint a
Principal Contractor if there is more than
one contractor engaged in the project.

Where there is only one contractor
engaged in the project, that contractor
will be the Principal Contractor.

The householder must ensure that the
Principal Designer and the Principal
Contractor carry out their duties under
the CDM Regulations 2015.

It is anticipated that the Principal
Contractor will carry out the duties of the
Householder in most domestic projects.

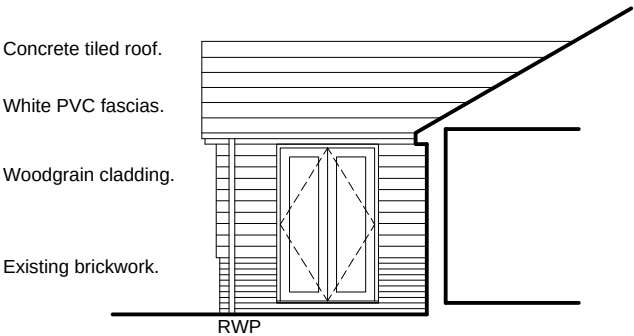

The Principal Designer must plan,
manage and monitor the
pre-construction phase of the project,
and prepare the Health & Safety file.
When the Principal Designer's
appointment ends, the H&S file must
be passed on to the Principal
Contractor to complete.

The Principal Contractor must prepare
a Construction Phase Health & Safety
Plan for all projects.

The CPH&SP should be proportionate to
the complexity of the project, but must
consider particular risks such as falls
from height and heavy components.

All contractors, including the Principal
Contractor, must ensure their workers
have adequate skills, knowledge,
experience and training to carry out
their work safely.

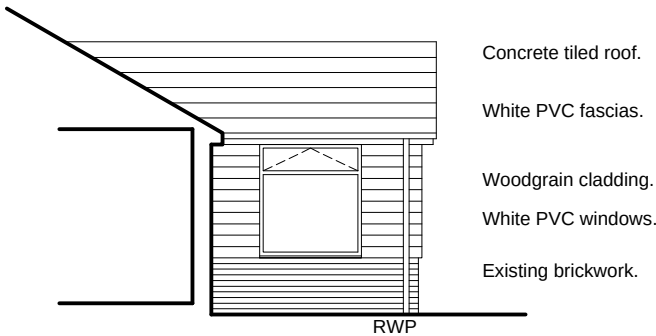

The Health & Safety Executive may
impose fines and fees for intervention
where any duties are not carried out
correctly.
