EZ DOCK PONTOON

Founded in 1991, EZ Dock is the world's leading manufacturer of high-quality modular floating docks, boat and PWC lifts and accessories. Combining strength and stability with lightweight and low maintenance, their patented designs have applications in both the commercial marine and residential markets.

EZ Dock floating, modular dock systems are composed of two parts: polyethylene sections and moulded rubber couplers. Both components are made of materials that are completely harmless to the environment and can be recycled when the intended use is finished.
