This diagram shows a proposed site section A-A. It features a row of buildings with a brown facade and white window frames. The buildings are set back from a grey road area. A red dashed line indicates the existing levels, which are dotted. The proposed levels are shown as a solid red line. The buildings are set back 6.5 meters from the road. The elevation of the buildings is 141.16. The elevation of the road is 139.68. The elevation of the existing levels is 140.00. The elevation of the existing levels is 138.000.

Properties not set inline with proposed design. Houses are set back 6.5 meters
