New roof to have bitumen
membrane layer

The diagram is a cross-section of a house. The roof is gabled with a chimney at the peak. Two solar panels are shown on the roof slopes, labeled "solar panel set within roof zone". The interior shows three floors. To the left of the house, four level markers are indicated: ATTIC, SFL, FFL, and GFL, each with a downward-pointing triangle. A set of stairs is shown on the left side of the house, leading down from the ground level. The ground is represented by a horizontal line at the bottom, with a label "SECTION" centered below it.
