Each of the LERC's in Wales offer a Biodiversity Information service, tailored specifically for use by Environmental Consultants and developers. Click on the link 'Find your LERC at the bottom of this page to go to the relevant LERC.

Results - High Street Merthyr Tydfil

Summary Species Designated Sites Export

Species records are listed below. The distance listed below is the distance from the record polygon centroid to the search polygon centroid. Click on a row for the full species record. The search box searches all columns for all words entered. For instance, to filter the results for category 1 birds in Brecon, enter 'bird CAT1 Brecon'.

Please note that records of the same grid reference and species have been concatenated into a single row in all the provided data outputs. This process will be indicated in the 'date' column, which will state the number of records plus first and last year of recording, e.g. 2 records, between 2011 and 2017. Other fields such as Recorder(s) and Comments will be concatenated. If you require the full details for each record, please contact the LERC.
