

1 No wall mounted downlight to positions marked on plan linked to PIR Sensors to be set a 2.1m high

All lights to be fitted with GU10 bulbs which are 2700K Homelight option only

Wall Mounted Light

The external lighting scheme has been designed to minimise impact on the natural environment and is restricted to rear wall of house, bottom of rear steps and entrance door. Each of the fittings will be on light sensor and timer to limit time of illumination. There will be no lighting on the front Elevation

Internal Lighting in rooms to the rear of the property will be low-intensity, warm-toned (under 2700K) LED lights

1 Proposed Site Lighting
