 - Construction Compound
 - Worst-Case Pad Area
 - Indicative Construction Working Area

- Vantage Point
- Area Visible from VP1
- Area Visible from VP2
- Approximate Walked Route to Vantage Point**
- VP1
- VP2

Notes
The Zone of Theoretical Visibility (ZTV) has been generated using ESRI ArcGIS Spatial Analyst extension. The digital terrain model (DTM) has been derived from OS Terrain 5 dataset (+/-2 m).
The ZTV has been generated from a viewing height of 1.8 m above ground level and a surface offset of 30 m. The ZTV is generated from a bare earth terrain and does not account for the screening effect of features within the landscape such as woodland.

Coordinate System: British National Grid
Projection: Transverse Mercator
Datum: OSGB 1936
Units: Meter
