| Combined | Lateral Drain | Inspection Chamber |
| Surface Water | | |
| Foul | | |
| Former S24 sewers (for indicative purposes only) | | |

NB: Sewer symbol colour indicates the type.

Notes:

Whilst every reasonable effort has been taken to correctly record the pipe material of DCWW assets, there is a possibility that in some cases pipe material (other than Asbestos Cement or Pitch Fibre) may be found to be asbestos cement (AC) or Pitch Fibre (PF). It is therefore advisable that the possible presence of AC or PF pipes be anticipated and considered as part of any risk assessment prior to excavation.

Dŵr Cymru Cynnydd (the Company) gives this information as to the position of its underground apparatus by way of general guidance only and on the understanding that it is based on the best information available and no warranty as to its correctness is relied upon in the event of excavations or other works made in the vicinity of the Company's apparatus. The user of this information shall be responsible for any excavations made without any prior agreement with the Company. This use of the information is done so in accordance with statutory requirements of sections 105 and 106 of the Water Industry Act 1991 which in essence require the Company to provide this information to the public. The Company does not accept any liability for any loss or damage caused by the use of this information. The Company's liability for this information is limited to the extent of the information provided and the Company's liability for this information is limited to the extent of the information provided and the Company's liability for this information is limited to the extent of the information provided.

Service pipes are not generally shown but their presence should be anticipated.
