

Dŵr Cymru
Welsh Water

PLA0051074

LEGEND

Clean network:

Stop tap

Water Treatment Works

Water Pumping Station

Existing main

Non-operational main

Raw Water

NB: Water main symbol colour indicates the type.

LIGHT BLUE

- Trunk

DARK BLUE

- Distribution

YELLOW

- Raw Water

Notes:

Whilst every reasonable effort has been taken to correctly record the pipe material of DCWW assets, there is a possibility that in some cases pipe material (other than Asbestos Cement or Pitch Fibre) may be found to be asbestos cement (AC) or Pitch Fibre (PF). It is therefore advisable that the possible presence of AC or PF pipes be anticipated and considered as part of any risk assessment prior to excavation.

Dŵr Cymru Cylfyngedig (the Company) gives this information as to the position of its underground apparatus by way of general guidance only and on the understanding that it is based on the best information available and is not warranted as to its correctness in the event of excavations or other works made in the vicinity of the company's apparatus. The error of location of apparatus facilities carrying out any excavations will be entirely on you. The information which is supplied by the Company is given in accordance with statutory requirements of sections 103 and 109 of the Water Industry Act 1991 which is based upon the best information available and, in particular, but without prejudice to the generality of the foregoing, it should be noted that the records that are available to the Company may not disclose the existence of water mains, service pipes, sewer, water pipes or drainage pipes and any associated apparatus and facilities. Consequently, the Company does not accept any liability for any loss or damage caused by the use of this information. It must be understood that the furnishing of this information is entirely without prejudice to the provisions of the New Roads and Street Works Act 1991 and the Company's rights to be compensated for any damage to its apparatus.

Service pipes are not generally shown but their presence should be anticipated.
