

East (Rear) Left Elevation

North Elevation to Park

West (Front) Right Elevation

- ① Roof to be re-slatted with natural slates on timber battens and breathable underlay to provide suitable ventilation to cold roof space. Remaining existing slates to be salvaged and re-used where possible.
- ② Gable parapets, copings and corbels to be made good and restored using matching natural stone, reclaimed from the site where possible and lime mortar. Code 4 lead flashings to be used at all parapet abutments.
- ③ Chimneys to be made good and restored using matching natural stone, reclaimed from the site where possible and lime mortar. Code 4 lead flashings to be used at junctions with roof.
- ④ Timber fascias to be replaced to match existing and rainwater goods to be renewed where necessary using matching cast iron replacement gutters and downpipes
- ⑤ N/A
- ⑥ Existing timber sash windows to be repaired and retained where possible or otherwise replaced to match. Secondary glazing will be applied internally to improve thermal and acoustic performance
- ⑦ N/A
- ⑧ All timber windows, doors and fascias to be painted in RAL 7016 Anthracite Grey
- ⑨ N/A
- ⑩ N/A
- ⑪ Reclaimed, dressed stone infill to existing doorway to create new, recessed window whilst maintaining legibility of former opening
- ⑫ Reclaimed, dressed stone infill to existing doorway to create new, recessed stone infill panel whilst maintaining legibility of former opening
