4. Description of Proposed Works

Please describe the proposed works:

As an explanation, I was not aware that a Planning Application was necessary for this work. It should be recognised that the site is demanding and because of the gradient of the land adjacent to the house, it has proved difficult to establish as sort of amenity space/garden.

To achieve this whilst at the same time provide safety for our children, privacy and sound protection from traffic on Oakland Street it is desirable to maintain a 2m high fence from the garden side. The nature and contour of the site has resulted in a higher fence line (as can be seen from the section shown on the drawings.)

I will address this in two ways:

1.0 Undertaking general repairs to the existing stone retaining wall which runs the length of Oakland Street.

2.0 Removal of the vegetation between the wall and timber fencing, clearing out the poor soil and replacing with sufficient top soil and planting a continuous beech hedge. This will allow the visual impact of the fencing to be substantially reduced and will screen at least 1.2m at the base.

The site is demanding and has proved difficult to provide a level of privacy to the amenity area for the occupier. This scheme, together with the landscaping and general repairs will resolve this.

Has the work already been started without planning permission?
