

The proposed scheme acknowledges the requirement to achieve a Net Benefit for Biodiversity and from the beginning this has been built into the planning of the project. It is recognized that the footprint of the scheme removes a no vegetation and is within a highly urbanized area. The applicant aims to deliver biodiversity enhancements at the local scale by offering the enhancements stated above on the site.  
As result of the ecological measures within this report, it is expected that there will be a demonstrable net benefit for biodiversity.

Ecology enhancements to be fitted before extension is used
