For the Attention of: Ms R Owens – Case Officer
Merthyr Tydfil County Borough Council

[By Email: planning@merthyr.gov.uk]

04 April 2022

Dear Ms R Owens

PLANNING APPLICATION: P/22/0066

Erection of 4 no. dwellings (2 no. detached and 1. no pair of semi-detached) including demolition of existing office building with stores; Builders Yard & Premises, Elwyn Drive, Twynyrodyn, Merthyr Tydfil, CF47 0NW

Thank you for your notification of 22 March 2022 seeking the views of the Coal Authority on the above planning application.

The Coal Authority is a non-departmental public body sponsored by the Department of Business, Energy & Industrial Strategy. As a statutory consultee, the Coal Authority has a duty to respond to planning applications and development plans in order to protect the public and the environment in mining areas.

The Coal Authority Response: Fundamental Concern

I have reviewed the site location plans, the proposals and the supporting information submitted and available to view on the LPA website. I can confirm that the site falls within the defined Development High Risk Area and that a Coal Mining Risk Assessment, or equivalent report, is required to be submitted to support this application.

The Coal Authority records indicate that the application site lies in an area of probable unrecorded shallow coal mining that could be attributed to the thick coal seam that outcrops to the west of the site.

In accordance with the agreed risk-based approach to development management in the defined Development High Risk Areas, the applicant should be informed that they need to submit a Coal Mining Risk Assessment Report, or equivalent report, to support this planning application. As no relevant information has been submitted at this time the Coal Authority **objects** to this planning application.

The Coal Authority would be very pleased to receive for further consultation and comment any additional information submitted by the applicant.

Please do not hesitate to contact me if you would like to discuss this matter further.

Yours sincerely

D Roberts

Deb Roberts *M.Sc. MRTPI*
Planning & Development Manager

General Information for the Applicant

The Coal Mining Risk Assessment needs to interpret the coal mining risks and should be based on up-to-date information of past coal mining activities in relation to the application site.

The need for a Coal Mining Risk Assessment is set out in the National Planning Practice Guide at:

<http://planningguidance.planningportal.gov.uk/blog/guidance/land-stability/land-stability-guidance/>

The Coal Mining Risk Assessment should be prepared by a "competent body". Links to the relevant professional institutions of competent bodies can be found at:

<https://www.gov.uk/planning-applications-coal-mining-risk-assessments>

Guidance on how to produce a Coal Mining Risk Assessment and a template which the "competent body" can utilise is also contained at:

<https://www.gov.uk/planning-applications-coal-mining-risk-assessments>

Under the Coal Industry Act 1994 any intrusive activities, including initial site investigation boreholes, and/or any subsequent treatment of coal mine workings/coal mine entries for ground stability purposes require the prior written permission of the Coal Authority, since such activities can have serious public health and safety implications. Failure to obtain permission will result in trespass, with the potential for court action. In the event that you are proposing to undertake such work in the Forest of Dean local authority area our permission may not be required; it is recommended that you check with us prior to

commencing any works. Application forms for Coal Authority permission and further guidance can be obtained from the Coal Authority's website at:
<https://www.gov.uk/get-a-permit-to-deal-with-a-coal-mine-on-your-property>

Disclaimer

The above consultation response is provided by the Coal Authority as a Statutory Consultee and is based upon the latest available coal mining data on the date of the response, and electronic consultation records held by the Coal Authority since 1 April 2013. The comments made are also based upon only the information provided to the Coal Authority by the Local Planning Authority and/or has been published on the Council's website for consultation purposes in relation to this specific planning application. The views and conclusions contained in this response may be subject to review and amendment by the Coal Authority if additional or new data/information (such as a revised Coal Mining Risk Assessment) is provided by the Local Planning Authority or the applicant for consultation purposes.
