DOORS AND WINDOWS

The Origin Window Collection

It's your world, let's frame it...

The Origin Home is a collection of the finest quality products, manufactured in Great Britain by Origin.

An integral part of this is the Origin Window collection which consists of two options - the OW-70 and the OW-80. Both stunningly designed and exceptionally finished, the key difference between the two systems is the sightlines.

Both are completely bespoke to your requirements as Origin's flexible production process gives you the freedom to customise your window to perfectly complement your needs. What's more, with our uncompromising security features used across both systems, your home will stay safe whatever option you choose.

Like all Origin products, our windows are guaranteed for up to 20-years, so you can relax knowing that your windows will last for years to come.

The Origin Slimline Window (OW-70)...

Beautiful, elegant and simplistic, the Origin Slimline Window is designed for spaces where maximising glass and light is essential.

Built from a high-grade aluminium with an impressive 65mm frame, the Origin Slimline Window is as strong as it is sleek. Its ultra-slim sightlines will not only deliver aesthetically, but its innate strength will ensure your home is kept secure.

The Origin Premium Window (OW-80)...

Modernising the design of traditional 19th Century timber windows, the Origin Premium Window is a highly durable and blissfully functional solution that's perfect for the 21st Century.

With an exquisite internal and external flush casement and unrivalled thermal performance, the Origin Premium Window also offers the added benefits of hassle-free maintenance and being manufactured from a premium grade aluminium for long-term reliability.

Here at Origin, our
vision is to *transform*
the way families enjoy
their home – from
inside to out.

Colour you happy...

Both the OW-70 and OW-80 can be manufactured in over 150 RAL shades, and our collection covers the wild, the wonderful and the classics.

Therefore, from the subtle to the slightly outrageous, you can guarantee there will be a colour to suit every Origin Home. Further to this, most of these colours can then be specified to have a gloss, matt or satin finish, so you're sure to find a colour scheme and finish to inspire.

Both systems also offer a dual colour option, so while the exterior frames can match the existing building style, the internal colour can match or contrast your interior decor.

In order to give it a flawless finish, the highest grade power coating is applied to our aluminium. With a durable yet smooth surface, it offers the benefit of being highly resilient to the elements.

Your windows when you want them...

As with everything Origin, the lead time in which you can receive your windows in is pretty exceptional.

When windows are ordered in one of our popular colours, you specify when you want them delivered. Whether that's for a day, a week or a month, Origin will deliver.*

Our popular colour range spans from Hipca White and goes all the way through to Jet Black, covering the ever popular metallic shades in between. Plus, the OW-80 popular colour range also includes two authentic woodgrain finishes, offering your property a timber look without the maintenance hardships.

Our most popular finishes are available in as little as 24-hours.*

**The 24-hour lead time is only available on the OW-80. The OW-70 is available in as little as 1-week when ordered in a popular colour.*

Bespoke to you...

your window, your way.

At Origin, we believe that the creation and manufacture of your windows is a very personal experience - it's an expression of who you are in style, practicality and functionality. So that's why every element of our windows are personalisable and tailored to you.

Specify your overall size, your desired configuration that works for your home and family's requirements, your colour scheme and handle choice and let us manufacture windows that can help make your home the best it can be.

From the smallest spaces through to grand mass coverings, we've done it all.

Even the gasket and Q-Lon seal colour is your choice...

	Door Colour	Recommended Q-Lon Colour
A.	7015M and 9007M	Slate Grey
B.	7016M	Anthracite Grey
C.	7021M and 9005M	Black
D.	9910G and 9910M	White
E.	Natural Oak and Golden Oak	Light Oak

Built to last...

We recognise that every home is unique, and that's why each window is skilfully designed, specially tailored and hand crafted by us.

By combining a premium grade aluminium with precision engineering and exceptional craftsmanship, Origin have a proven track record in delivering high quality, functional and stylish products that are built to last.

Manufactured and assembled in Origin's Buckinghamshire based factory, all of our windows face rigorous quality testing at each stage of the manufacturing process to ensure that every window leaves at a consistently high standard.

We have complete control of every product – from sourcing through to manufacturing and delivery, and only use the highest quality materials and components in the process.

Our unfaltering stance on quality control in all operations enables us to be proud to offer an incredible guarantee of up to 20-years for absolute peace of mind.*

See page 31 for more information on our quality accreditations.

**Guarantee based on location of where the windows will be installed.*

Safety first...

As well as looking stunning, the Origin Window collection is highly functional in satisfying Building Regulations for emergency exits, restricted openings and marine based dwellings.

Side and top hung windows can be designed to serve as an emergency exit window by meeting the minimum width and height required to comply with British Building Regulations.

They can also be specified with discreetly designed trickle vents that sit inside the sash for additional ventilation in required rooms.

Plus, an optional restrictor hook prevents the window opening any further than a pre-set angle, giving your property an added layer of safety and security.

Both top and side hung windows can be designed to serve as emergency exits.

Why aluminium?

Frame strength is a very important factor to consider when looking to invest in a window system.

Aluminium is Origin's material of choice because of its strength and durability - achieving these properties while weighing 67% less than steel. This means that the frames are highly resistant to flexing, warping or corroding in variable weather conditions.

Additionally, another reason for aluminium being Origin's material of choice is because it's infinitely recyclable.

Our aluminium requires minimal maintenance* and combines seamlessly with the bespoke thermal break to provide unrivalled energy efficiency.

All of these attributes make it the perfect material for creating visually exquisite, easy to operate and highly secure windows.

Read more about our environmental accreditations on page 33.

**More routine maintenance will be required in certain areas.
See our terms and conditions for details.*

Enhanced security features...

Sophisticated style and elegance blends with the very latest in precision engineered locking mechanisms to make the OW-70 and OW-80 two ultra-secure systems.

Like our aluminium, our hinges are also made from the highest quality of materials and are capable of carrying exceptionally heavy loads, exceeding above and beyond the standardised 50,000 cycle test required for residential windows.

Both systems also feature a night vent function, enabling the window to be slightly open whilst in the locked position, allowing air to come through and not be compromised on security.

Hinge guards are installed as standard on all Origin Windows, and they are used to serve the purpose of protecting the hinges as well as blocking intruders from jemmying the window open along the hinged side.

Other features such as our industry-renowned locking systems, impenetrable crimped frames and locking handles help make the Origin Windows two of the most secure on the market.

Security Accreditations...

Both the OW-70 and OW-80 comply with PAS 24:2016, which is the recognised standard for doors and windows manufactured in the UK.

This means that your window has been thoroughly examined and tested to make sure it's fit for purpose in any property, whether that's in an existing structure, renovation or new build.

Additionally, both systems are accredited in line with the police preferred Secured by Design security regulations for extra peace of mind.

Both the OW-70 and OW-80 are PAS 24:2016 compliant and Secured by Design accredited.

See page 30 for more details.
