Amendments Summary

Further to Validation Officer, Marlene Ferreira's email dated on 8th July, recommending us to resubmit the application in its entirety following previous revisions of drawings to increase efficiency of validation process.

Following Marlene setting out the remaining validation requirements for the Full & LBC applications at the Pentrebach House, Merthyr Tydfil, please find attached a revised drawing package which has been reviewed and updated to address each of the outstanding points raised. The amendments are summarised below.

1. Existing and Proposed Elevations (to Scale)

We have now included a full set of scaled existing and proposed elevations (Drawings 2730-214 Rev B and 2730-215 Rev B). These drawings replace the previous photographic elevations and clearly illustrate the proposed external works, including the extent of the redecoration, proposed lighting scheme, timber-effect cladding and associated alterations.

2. External Lighting

The proposed elevations now identify the location of all external lighting, including wall-mounted up/down lights, floodlights, rope lighting to the entrance canopy and gutter line, and the new entrance lantern. A separate external lighting schedule has also been included confirming the proposed fittings and specifications.

3. Timber-Effect Cladding

The proposed elevations now clearly show the location and extent of the proposed timber-effect composite slatted cladding above the entrance, together with the proposed specification and finish.

4. New Rear Yard Access Door

The new rear opening from the kitchen into the extended yard area is now shown on both the proposed ground floor plan and the proposed elevations, together with the associated concrete steps and emergency light above the doorway.

5. Yard Extension, Fence and Gates

The proposed close-boarded timber fence and metal-framed access gates enclosing the extended yard are now shown on the proposed site layout and proposed elevations. Generic construction details have also been included within the external details drawing.

6. Walk-In Storage Unit

The proposed walk-in storage unit is now shown consistently on the proposed site layout and proposed elevations, together with its relationship to the listed building. The dimensions have been coordinated across the drawing package and generic construction details have been provided.

7. Proposed First Floor Plan

A proposed first floor arrangement has now been included within the revised drawing package. This clarifies the limited nature of the first floor works and identifies the internal blocking of the existing window associated with the proposed external cladding.

Having reviewed Marlene's comments, we trust the enclosed information now addresses the outstanding validation matters identified in your correspondence and provides sufficient information to enable both the Full Planning and Listed Building Consent applications to be validated.
