

Tree Condition report conducted by Hawthorne Tree Services.

Client address;

Hannah Reddy.
17 Cwrt Bevan,
Merthyr Tydfil,
CF47 0AQ.

Date of tree survey;

21st of Apr 2023

Tree survey carried out by;

Lewis Hawthorne,
Hawthorne Tree Services Ltd,
36 Commercial Street,
Tredegar,
NP22 3DJ
Tel; 01443 566045
Mob; 07554421218

Tree survey qualification;

Lantra Tree Inspection

Definitions of tree age;

- Young - Established tree up to one third of the expected ultimate height
- Middle aged - Between one third and two thirds of the expected ultimate height
- Mature - More or less full height but still increasing in girth fairly rapidly in time
- Late mature - More or less full height and large girth, girth now only increasing slowly

Survey keys and abbreviations;

- Number - Number of tree corresponding with accompanying plan or site tree tags. Approximate tree position marked on the accompanying plan
- Species - The common name and full scientific name

Priorities;

- 1 - Tree works which should be undertaken within 12 months
- 2 - Tree works which should be undertaken within 24 months
- 3 - Tree works which should be undertaken within 36 months

Tree Number id.	Species.	Height approx (m)	Stem Diameter approx (m)	Age approx	Crown spread (m)	Tree description-physiological/ structural condition	Actions and/or recommendations	Priority schedule
T1	Common English Oak. Quercus Robur	14m	0.6	Middle aged	10m	T1 tree appears to be in good health and in good structure. Crown of tree growing more towards North-west pattern, overall crown in good shape. All branches show signs of previous crown reduction, new growth appearing healthy with signs of epicormic growth on lower main stem. Ivy plant climber slowly taking control of stem and lower branches.	Undertake 1 to 2m crown reduction to previous selected points as previous reduction was done. Remove all Ivy and sever at base. Remove lowest epicormic growth on main stem up to 5m.	1
