

BIRD BOX DETAILS

This document details the 4 no. bird boxes and 2 no. bat boxes to be located on the YMCA site as a requirement of planning condition no. 7 related to the planning consent, reference P/20/0219. Please see the details of each bird/bat box product below, their locations being marked on the site plan at the end of the document.

Note that the integrated bat/bird boxes have been positioned with the intention of being out of sight of the public where possible.

Bird Box (1): A typical image of an integrated general bird box, 1 no. to be built into the north elevation, no more than 5m from ground level. The box is proposed to be stitched within the existing brickwork and rendered over, leaving the entrance hole unobstructed. Product link: <https://www.birdbrickhouses.co.uk/brick-nesting-boxes/integrated-bird-box/>

Bird Box (2): A typical image of an integrated Sparrow Terrace bird box, 1 no. to be built into the north elevation, no more than 5m from ground level. The box is proposed to be stitched within the existing brickwork and rendered over, leaving the entrance holes unobstructed. Product link: <https://www.birdbrickhouses.co.uk/brick-nesting-boxes/nesting-boxes/>

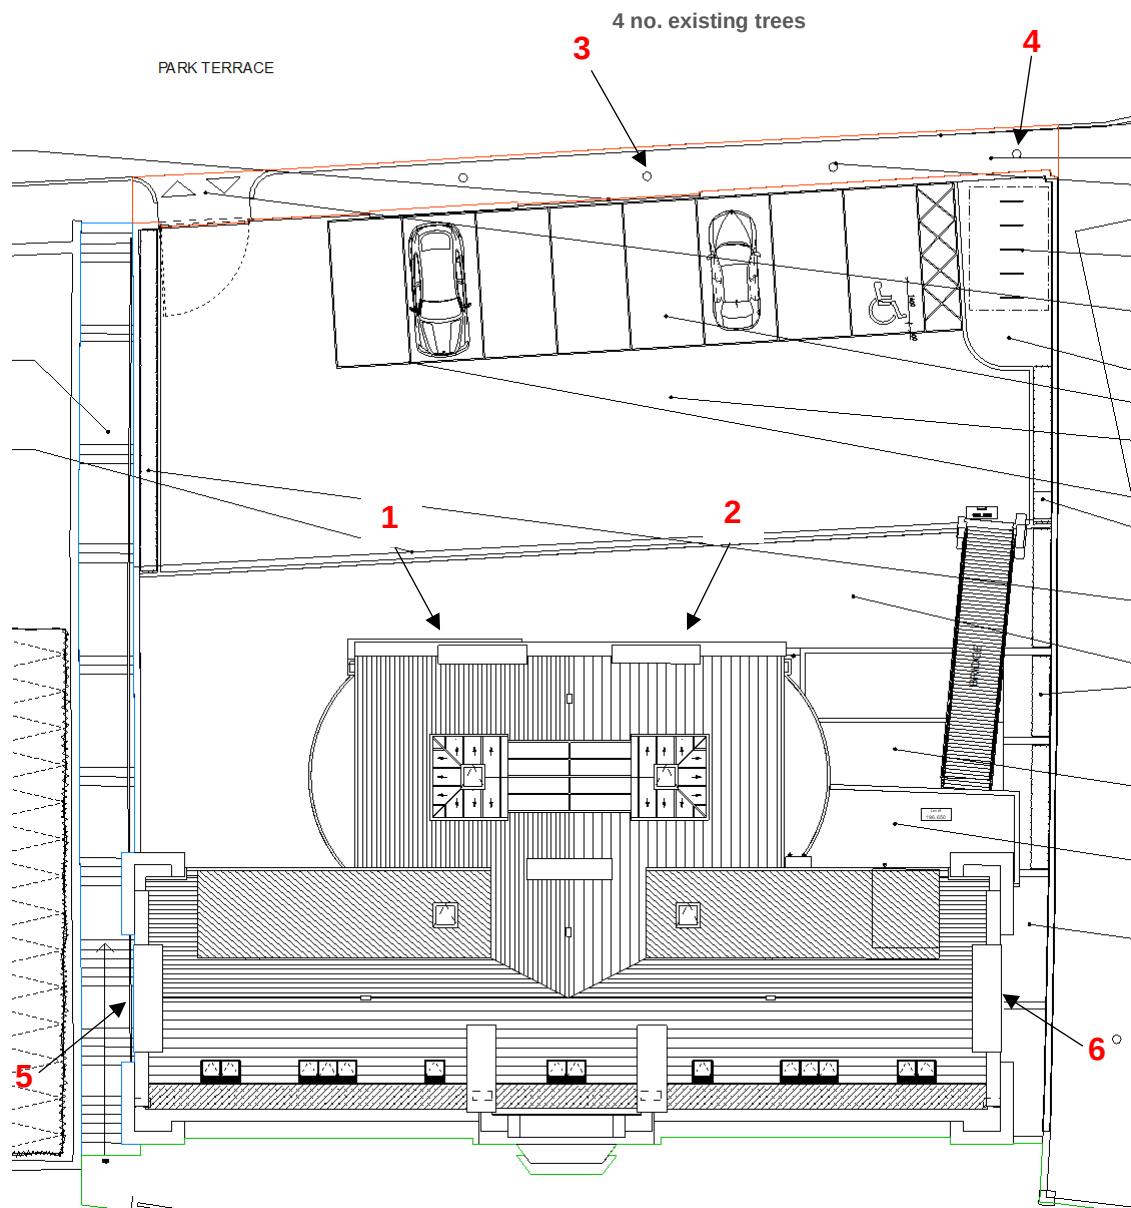

Bird Box (3): A typical image of a woodcrete general bird box, 1 no. to be fixed to an existing tree on site. Product link: <https://www.brinvale.com/products/woodstone-nest-bird-box-32mm.html>

Bird Box (4): A typical image of a woodcrete 1B Schwegler nest box, 1 no. to be fixed to an existing tree on site. Product link: <https://www.nhbs.com/1b-schwegler-nest-box>

Integrated Eco Bat Box (5 & 6): A typical image of an integrated eco bat box to be built into both gable chimneys (east and west facing respectively). The box provides a clear contrast to the surrounding brick. Product link: <https://www.nestbox.co.uk/products/integrated-eco-bat-box>
