

DELEGATED REPORT

Application No: P/21/0162

Site Address: 10 Model Cottages
Baden Terrace
Penyard
Merthyr Tydfil
CF47 0HS

Development: Erection of rear single storey extension to provide wet room

Case Officer: David James

Site Visit: 19th May 2021

Application Expiry Date: 22nd June 2021

Consultation reply date expired: 25th May 2021

APPLICATION SITE

The application site relates to a two-storey, mid-terraced dwelling situated within a residential street in Penyard. The property faces in a westerly direction onto the street. It is bound by other dwellings to either side and a lane to the rear.

The topography of the area is such that the majority of the rear garden of the application site is at a higher level than the highway and dwelling.

PROPOSED DEVELOPMENT

This application seeks full planning permission for the construction of a single-storey rear extension with associated internal and external alterations. The proposed extension would be attached to an existing single-storey rear extension.

The proposed extension would measure 2.9m wide, 1.7m deep and 2.7m high, incorporating a flat roof. The extension would accommodate a wet room for disabled use. The extension would have window and door in its rear elevation. The walls of the extension would be rendered, and the door and window would be white upvc. These materials would match the dwelling. The roof would be have a rubberised finish.

As part of the proposal, a velux window would be inserted into the roof of an existing single-storey rear extension.

PLANNING HISTORY

There is no recent planning history relevant to the determination of this application.

CONSULTATION

No consultation was undertaken as part of the application.

PUBLICITY

In accordance with the Town and Country Planning (Development Management Procedure) (Wales) Order 2012, letters were sent to the adjoining properties.

No letters of objection were received following this publicity exercise.

POLICY CONTEXT

National Policy

The Future Wales – the National Plan 2040 sets out a strategy for addressing key national priorities through the planning system, including sustaining and developing a vibrant economy, achieving decarbonisation and climate-resilience, developing strong ecosystems and improving the health and well-being of our communities.

Planning Policy Wales (PPW) Edition 11 (February 2021) sets out the land use policies of the Welsh Government. The most relevant sections are:

Sections 3.3 – 3.16 sets out the principles of good design in new development proposals, which should take into account its relationship to its surrounding context.

The policies in PPW are supported by Technical Advice Notes (TANs). The most relevant TAN to this application is as follows:-

TAN 12 - Design advises that the Assembly Government is strongly committed to achieving the delivery of good design in the built and natural environment, which is fit for purpose and delivers environmental sustainability, economic development, and social inclusion at every scale throughout Wales.

Local Policy

Merthyr Tydfil County Borough Council Replacement Local Development Plan (LDP) 2016-2031:

Policy SW4 – Settlement boundaries

Policy SW11 – Sustainable design and Placemaking

Policy CW1 – Historic Environment

Policy EnW1 – Nature Conservation and Ecosystem Resilience

Policy EnW3 – Regionally Important Geological Sites, Sites of Importance for Nature Conservation, Local Nature Reserves and Priority Habitats and Species

Policy EnW4 – Environmental Protection

Other Material Considerations – Supplementary Planning Guidance (SPG):

SPG 4 - Sustainable Design

PLANNING CONSIDERATIONS

The main issues to consider when assessing this application relate to whether the proposal would have an acceptable impact on the character and appearance of the existing property and wider street scene. The impact on the amenity of neighbouring residents is also an important consideration.

In terms of visual amenity, the proposed extension would be located to the rear of the dwelling, away from the street frontage. As such, it would not be visible from the front street scene and would therefore not have an adverse impact on the appearance of the dwelling when viewed from the highway. Given its form and modest dimensions, it is considered to be of an acceptable design and its scale would not appear out of proportion with the main dwelling. Furthermore, the external finishing materials would mainly match the existing house. In this respect, the proposal is found to be in accord with Policy SW11 of the LDP.

Regard has also been had for the impact of the proposal on the residential amenities of the surrounding occupants (9 and 11 Model Cottages). In this respect, it is noted that the extension would be attached to an existing rear extension, which is adjacent to the adjoining dwelling of 11, Model Cottages. It would not project beyond or above the existing extension and, as such, would not result in any additional impact on number 11.

The extension would be constructed in close proximity to the shared boundary with 9 Model Cottages. However, given its modest size (1.7m deep and 2.6m high), it is not considered that it would result in any harmful impact in terms of overbearing impact, overshadowing, loss of light, or overlooking/loss of privacy impacts.

Having considered the above, and without any objections following the publicity exercise, the development is deemed to be acceptable with respect to residential amenity and thus in compliance with Policy SW11 of the LDP.

The duty to improve the economic, social, environmental and cultural well-being of Wales, in accordance with the sustainable development principle, under section 3 of the Well-Being of Future Generations (Wales) Act 2015 ("the WBFG Act") has been taken into consideration when determining this application. In reaching the following recommendation, the ways of working set out at section 5 of the WBFG Act have been considered and thus the proposal is in accordance with the sustainable development principle through its contribution towards one or more of the Welsh Ministers well-being objectives set out as required by section 8 of the WBFG Act.

Accordingly the following recommendation is made:

RECOMMENDATION: BE APPROVED subject to the following CONDITIONS:

1. The development shall begin not later than five years from the date of this decision.

Reason - To comply with Section 91 of the Town and Country Planning Act 1990.

2. The development shall be carried out in accordance with the following approved plans and documents:

MC-02 (Proposed Plans and Elevations) received 27th April 2021

MC-03 (Site Plans) received 30th April 2021

MC-04 (Illustrations) received 27th April 2021

Reason -To ensure compliance with the approved plans and clearly define the scope of the permission.

INFORMATIVES

1. All bats and their roosts are protected against disturbance under UK and European legislation. If works are planned on a building/tree in which bats are found to be roosting, Natural Resources Wales (NRW) must be contacted. They must be given reasonable time to advise as to whether the works should be carried out and, if so, the method to be used.

If work has already commenced and bats are found, or if any evidence that bats are using the site as a roost is found, work should cease and NRW should be contacted immediately.

2. All birds, their nests and eggs are protected by law under the Wildlife and Countryside Act 1981 (as amended) while they are breeding. Works to any trees, hedgerows and other suitable nesting bird habitat which are to be removed or pruned as part of the proposal should only be carried out outside the bird breeding season. The bird breeding season typically extends between March to August inclusive.

If any vegetation removal or site clearance works are scheduled to commence in the bird nesting season it is advised that the advice from an Ecologist is sought. Any active nests will need to be protected until the young have fledged.

RECOMMENDATION ENDORSED

Head of Town Planning
