Good Morning Kate,

In reference to the planning permission application for the Noticeboard at both Mount Pleasant and on Canobie Crescent. I have been working with Paul on this project. A bit of information is below on why we are applying for planning and the reasons for locations.

- Who is proposing to install the notice board, and for what purpose?

Invest Local Ynysowen is a steering group made up of local organisations and individuals across the Aberfan, Merthyr Vale and Mount Pleasant area, who's aim is to utilise the Invest Local funding to support community development and cohesion. Following extensive community consultation over the last few years, the community made it clear that they want more information and better access to community news via local noticeboards.

- What type of information or material is intended to be displayed on the board?

Local community information - no business advertising. Community events, sessions and support from local community groups, charities and support services.

- Who will be authorised to place items on the board?

Local community and charitable organisations e.g. YES Ynysowen Events and Social, Trinity Childcare charity, Taff Rocks, local churches, Scouts, Libraries, Community Focused Schools, etc.

- How will access to the board be managed?

Local volunteers will be utilised to keep the boards updated, and Invest Local Ynysowen and the YES Ynysowen Events and Social groups will monitor and check the boards

- Who will be responsible for its ongoing maintenance and upkeep?

YES - Ynysowen Events and Social will take on liability of the boards and any future maintenance.

I am currently seeking boards that are shorter in height in order to reach the 1.7m maximum, or potentially looking at additional funding to cut down the stands.

If you need any further information, please let me know.

Laura
