RE: P/20/0109 Light Industrial Units, Pant Industrial Estate: Merthyr Tydfil

With regards to the above application I am in receipt of the detailed landscape drawings please find the following observations:

The landscape proposals drawings are comprehensive and provide sufficient detail for the proposed landscape operations on the site. The selection tree species will have presence and offer good habitat for pollinators. The use of green rooves, rain gardens and native grassland species are a welcome addition. We would require a five-year management plan for the development to ensure the success of the scheme.

Should you wish to discuss this matter further, then please do not hesitate to contact me.

Kind regards

Tom Bramley
Landscape Architect
