- The choice of bird care professionals - millions sold

Schwegler Bird House, Dimensions:

- 330H x 210W x 150D mm
- Entrance Hole 32mm
- Weight 3.7kg

Schwegler Woodcrete Bird Boxes

These nest boxes are especially made to exacting standards by Schwegler using their unique WoodcretePLUS™ material - an incredibly tough, durable mix of sawdust, concrete and clay that is rot-proof, predator proof and impervious to the worst weather. Their excellent insulating properties will keep any nesting brood warm and sheltered, and their smart, natural looks will stay good for decades to come.

- During 50 years of use, Schwegler bird boxes have proven to be exceptionally long lasting - usually well in excess of 25 years.
- Schwegler materials provide precisely the right thermal properties for both chick-rearing and winter roosting.
- Fully waterproof, Schwegler bird box requires no maintenance.
- Schwegler products resist nearly all forms of natural damage, including that made by woodpeckers and pine martens.

WoodcretePLUS™ nest boxes are the choice of conservationists throughout the world, universally recognised as the best, both for their exceptionally high occupation rates and value for money.
