Reach new heights in performance and savings

Welcome the next generation of Philips ClearFlood: Optimized energy efficiency and product design for a cost-effective switch to LED in logistics, retail, parking sites, recreational sports fields and more

In today's competitive environment, reducing energy consumption and maintenance costs without compromising safety and comfort is paramount. The new Philips ClearFlood gen2 addresses these challenges, offering advanced technology and innovative design that deliver exceptional performance, reliability and optional integrated connectivity.

Experience the benefits of an attractive total cost of ownership thanks to the intelligent product design and improved energy efficiency. With optional integrated wireless connectivity, the ClearFlood gen2 allows you to achieve even greater energy savings and operational excellence.

And with the HID ban underway in 2027, it's high time to discover how the new ClearFlood gen2 can transform your lighting installations, offering the perfect balance between safety, convenience and cost efficiency.

Highlights of the new generation

Small

Medium

Large

Very attractive total cost of ownership

Thanks to its high luminous efficacy (143 lm/W to 167 lm/W, at CCT 4000K, CRI70), cost-effective design and very long lifetime (100,000 hours @L90).

Interact Ready connectivity for smart lighting

Connect to the cloud and discover additional ways to save energy through optimized efficiency and improved lighting management.

Versatile, robust design in all sizes

Your requirements, your choice

Serviceability:

- Toolless opening of glass cover
([i](#) Select FG-TO in the product configurator)
- Opening of glass cover with screws
([i](#) Select FG in the product configurator)

Choice of housing finishings for different requirements and budgets

- Unpainted aluminum housing
([i](#) Select N in the housing color configuration)
- Standard coating
([i](#) Select N in the product configurator)
- Marine protected coating
([i](#) Select MSP in the product configurator)
- Swimming pool coating
([i](#) select SPO in the product configurator)

Durable design for reliable performance

- IP 66 / IK 08
- Ambient temperature resistance: -40°C to +50°C
- Very long lifetime: 100,000 hrs at L90

Hassle-free installation

More compact product design and 25% lighter compared to previous generation¹

Bracket designed for easy 1-to-1 HID retrofit installations

Connectivity

Connectivity options available for all product sizes

Node integrated into the luminaire housing², instead of externally, for a sleeker look and lower cost

¹Comparing ClearFlood gen2 small (BVP655) with ClearFlood (BVP650)

² Possible up to an inclination of 35°, beyond this an external box is required for optimum signal transmission/reception

Tailored lighting for diverse applications

Transportation hubs

- Outdoor: car parks, aprons, harbors, toll stations
- Indoor: train stations, airports

Retail and industrial sites

- Outdoor: car parks, facades, area lighting
- Indoor: storage areas

Recreational sports

- Outdoor: small and medium sized tennis courts, urban sports areas (e.g. basketball courts, skate parks)
- Indoor: multipurpose gymnasiums, swimming pools, basketball courts

Your way forward: Interact wireless smart lighting

With Interact, it's easier than ever to realize the benefits of smart lighting: higher energy savings, greater comfort, and improved operational efficiency — and a big step towards achieving sustainability goals.

General benefits

- Ideal for refurbishments and new installations
- No additional (DALI) control wires needed
- Quick to install with little downtime

Sustainable

- Enable higher energy and cost savings
- Reduce CO₂ emission and material waste

Smart

- Benefit from remote control and monitoring and reporting capabilities
- Use data to make better informed decisions more quickly

Safe

- Easily set the right lighting conditions for enhanced comfort and safety
- Get informed about issues to allow for timely and cost-efficient maintenance

Designed for a circular economy

In 2022, we used 1.7 times the resources our planet can sustain. To transition to a sustainable and circular economy, we need to rethink the way we produce and consume. There's no plan B for our home planet.

By choosing our lighting for circularity solutions, you get flexibility in lighting configurations and settings while reducing your carbon footprint to help you reach your sustainability development goals.

Go for optimal sustainability by selecting your renovation path

Are you looking to update your non-LED lighting?

- Choose our lighting for circularity **products**
- Full portfolio of circular economy ready Philips LED luminaires
- Superior efficacy
- Products are recyclable, connectable and serviceable.

Are you planning to update your LED-based infrastructure?

- Discover our remanufacturing or refurbishment **services**
- Gain enhanced luminaire performance, extended lifetimes, and end of contract management

Do you want to unlock the potential of smart lighting?

- Update your infrastructure to smart lighting with our **systems** solutions
- Optimize your energy costs with insights into your energy usage
- Configure lighting behavior
- Remotely monitor your lighting system

Philips ClearFlood gen2 meets the five criteria of lighting for circularity

1. Energy efficiency and extended lifetime

- High-efficacy light engine with luminous efficacy from 143 lm/W to 167 lm/W (at CCT 4000K, CRI70)
- Optics support optimized lighting design for key applications
- Very long lifetime of 100,000 hours (L90) reduces the need to replace luminaires or components

2. Connectable

- Serviceable drivers can connect ClearFlood to smart lighting systems, both wired (e.g. DALI) and wireless (e.g. Interact)

3. Upgradeable

- Flexible system: Simply add new luminaires or drivers to upgrade specific functions or the entire system

4. Reusable and recyclable

- Easy to dismantle and recycle
- No glue, no potted drivers

5. Serviceable

- Easy to install, service, maintain, repair and replace thanks to the QR-based service tag identification system
- Each luminaire and driver is uniquely identifiable

Specifications

Luminous flux	From 10,000 lm, up to 93,000 lm source lumen output
Efficacy	Typical efficacy from 143 lm/W to 167 lm/W (at CCT 4000K, CRI70)
Correlated color temperature	2700K / 3000 K / 4000 K / 5700 K
Color rendering index	≥70
Lifetime	100,000 hours at L90
Weight	12 kg (small; up to 30,000 lm) / 19 kg (medium; up to 60,000 lm) / 27 kg (large; up to 93,000 lm)
Optics	Dedicated Sports and Area light distribution platform, also used in OptiVision LED gen3.5
Voltage	230V
Electrical class	I and II
Ingress protection	IP66
Impact resistance	IK08
Surge protection	6/8 kV (standard) / 10kV (optional)
Ambient temperature	-40°C to +50°C
Finishing	Raw aluminium / Standard (500 hrs SST) / MSP (1,000 hrs SST) / Swimming pool treatment
Controls	DALI / SR (Interact Ready)
Warranty	5 years ¹

You and Signify – a reliable partnership

Signify, previously known as Philips Lighting, is the world leader in connected LED lighting systems, software and services. We proudly market the best lighting brands in the world, including Philips and Interact.

Close cooperation before, during and after projects is important to us. Our local service teams make sure you always get the competent support and information you need. You can rely on us for flexible, on-time delivery and product availability.

To help you stay on top of your game the [Signify Lighting Academy](#) offers a comprehensive range of educational resources for you to grow your expertise and get certified.

Our global brands

PHILIPS

The Philips brand stands for quality and energy-efficiency in light. For over 125 years, Philips products have been at the forefront of innovation.

Today Philips is recognized as the leading brand in lighting.

interact

Interact is the brand of our IoT software and platform that manages smart lighting systems and the data that those systems collect.

Easy to install and set up, Interact software can be used in a wide range of application areas, from small offices to entire cities.
