Good morning David

With reference to your request for our observations regarding the above proposed development, my only observation is that we have an existing live HV cable that crosses the site and will have to be diverted to enable the ground works.

As these works will have to be planned and will also be chargeable, a new enquiry will have to be raised by calling our contact centre on 0800-096-3080 to raise a new enquiry.

If you require any further information, please don't hesitate to contact me.

Regards
