10th June 2025

Dear Sir

**Re: Outline Planning permission for the construction of 1 pair of semi detached houses
Land Rear Of 16-24 Chestnut Way Gurnos Merthyr Tydfil CF47 9SB
Pl.App.No.: P/25/0094**

Thank you for consulting us about this application; consequently we have reviewed the detailed information contained on your website.

We have consulted the regional Historic Environment Record and note that there are no known archaeological sites within the proposed development area. The National Monuments Record (NMR) includes the St Aloysius's Church, built in 1977, a short distance to the southwest. However, there is no suggestion that any associated remains extend into the application area. A review of historic Ordnance Survey mapping indicates no archaeologically significant structures or features within the proposed development. We also note that the previous development of the site is likely to have had an adverse effect on any potential remains that may be present. Overall it is unlikely that archaeologically significant material will be encountered during the course of the proposed works.

As a result, there is unlikely to be an archaeological restraint to this proposed development and consequently, as the archaeological advisors to your Members, we have no objections to the positive determination of this application. The record is not definitive, however, and features may be disturbed during the course of the work. In this event, please contact this division of the Trust.

If you have any questions or require further advice on this matter please do not hesitate to contact us.

Yours faithfully

R. Dunning
