8. Trees - Reasons For Works

This section only needs to be completed if you are seeking consent for proposed works to trees under a Tree Preservation Order (TPO)

Please state the reasons for carrying out the proposed works on the tree(s):

The tree appears to be in generally good health although a full hazard risk assessment is advised.
There is a fork in the main stem at approximately 2.8 m which although not thought to be a major structural weakness may still be prone to failure if end loading of branches in upper crown increases.
There are several dead limbs within the lower and middle parts of the crown.
Some heavily end loaded limbs are developing over the property.
The proposed works are intended to reduce the risk of limb failure which could impact on high value property. The works advised should not impact on the trees health and if undertaken in accordance with good arboricultural practice and to British Standard 3998 2010

Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the documents specified.

Health or safety of the tree(s) - e.g. it is diseased, fears that it might break or fall: ☒ Yes ☐ No
