Introduction

This Listed Building External Openings Photographic Record has been prepared by Spring Design in support of a planning application and application for Listed Building Consent to be submitted to Merthyr Tydfil County Borough Council, in relation to the following Grade II Listed Building (ref. 11475):

Former St Tydfil's Hospital Entrance Block (Centre Part Only),
Upper Thomas Street
Merthyr Tydfil

In order to facilitate convenient cross-referencing between different sections, this document has been split into 5 parts of which this is Part 3. This document should therefore be read in conjunction with the other parts.

Due to restrictions placed on movement and access as a result of the 2020 Coronavirus pandemic, this photographic survey was only undertaken on 6th and 7th August 2020 once a substantial part of the building had been cleared of dangerous debris.

At the time of undertaking the survey, parts of the building remain inaccessible due to the dangerous condition of the structure and the presence of persons that use the property as a shelter and for the purpose of substance abuse.

This document is not intended to represent a detailed condition survey but as an aid to developing a strategy for retaining or replacing external doors and windows.
