

DELEGATED REPORT

Application No: P/22/0207

Site Address: 44 Cyfarthfa Gardens
Cefn Coed
Merthyr Tydfil
CF48 2SE

Development: Garage conversion (to habitable room)

Case Officer: David James

Site Visit: 31st August 2022

Application Expiry Date: 3rd October 2022

Consultation reply date expired: 5th September 2022

APPLICATION SITE

The application relates to a detached dwelling located within the mainly residential area of Cefn Coed, and within the settlement boundary. The site is bound by a turning head to the front, and other dwellings to the sides, and rear.

PROPOSED DEVELOPMENT

Full planning permission is sought to convert an existing integral garage into a habitable room. This would involve the removal of the existing garage door within the front elevation and the insertion of a window and walling (which would match the existing dwelling) in its place.

PLANNING HISTORY

The relevant planning history is detailed below:

P/97/0449 Erection of 59 homes
Granted planning permission subject to conditions on 16/04/98

CONSULTATION

Engineering and Highways Manager No Objection

PUBLICITY

In accordance with the Town & Country Planning (Development Management Procedure) (Wales) Order 2012, letters were sent to the adjoining dwellings.

No letters of objection were received following this publicity exercise.

POLICY CONTEXT

National Development Framework

Future Wales: the National Plan 2040 (February 2021) sets out a strategy for addressing key national priorities through the planning system, including sustaining and developing a vibrant economy, achieving decarbonisation and climate-resilience, developing strong ecosystems and improving the health and well-being of our communities.

National Planning Policies

Planning Policy Wales (Edition 11, February 2021)

Local Planning Policies

Policies SW11: Sustainable design and place making and CW1: Historic Environment of the Merthyr Tydfil County Borough Council Replacement Local Development Plan 2016-2031 is relevant to the determination of this planning application. Furthermore, the application will be determined having regard to the advice contained within Supplementary Planning Guidance Note 6, A Design Guide for Householder Development.

PLANNING CONSIDERATIONS

It is noted that a garage conversion as proposed would normally constitute permitted development. However, the original planning permissions (outlined above) relating to this housing development included a condition which removed these rights and thus necessitates an application for such developments to be fully considered.

The garage conversion as proposed would result in the existing garage door being replaced with a window and walling that would match the existing dwelling. It is not considered that this addition would harm the character of the dwelling or visual amenities of the area. The proposal is therefore found to be of an acceptable design and in accord with Policy SW11.

Regard has also been had for the impact of the proposal on the residential amenities of the surrounding residents. However, in this respect it is not considered that the proposal would have any unacceptable impact. The proposed use of the garage following conversion would remain residential and the new window would overlook the front driveway and adjacent turning head and front garden areas. It is also noted that no representations were received following the publicity exercise. The proposal is therefore again in accord with Policy SW11 of the LDP.

Finally it is acknowledged that the garage conversion would result in the loss of an off street parking space. However, there is space on the existing driveway to allow sufficient off street parking for a dwelling of this size. As such no objection is raised in terms of parking or highway safety.

The duty to improve the economic, social, environmental and cultural well-being of Wales, in accordance with the sustainable development principle, under section 3 of the Well-Being of Future Generations (Wales) Act 2015 ("the WBFG Act") has been taken into consideration when determining this application. In reaching the following recommendation, the ways of working set out at section 5 of the WBFG Act have been considered and thus the proposal is in accordance with the sustainable development principle through its contribution towards one or more of the Welsh Ministers well-being objectives set out as required by section 8 of the WBFG Act.

Accordingly the following recommendation is made:

RECOMMENDATION: BE APPROVED subject to the following **CONDITIONS:**

1. The development shall begin not later than five years from the date of this decision.

Reason - To comply with Section 91 of the Town and Country Planning Act 1990.

2. The development shall be carried out in accordance with the following approved plans and documents:

869.06 Proposed Ground Floor Plan received 8th August 2022
869.07 Proposed Front Elevation received 8th August 2022
869.08 Proposed Side Elevation received 8th August 2022
869.09 Proposed Rear Elevation received 8th August 2022
869.10 Proposed Side Elevation received 8th August 2022

Reason -To ensure compliance with the approved plans and clearly define the scope of the permission.

INFORMATIVES

1. This planning permission does not provide consent to undertake works that require a European Protected Species (EPS) licence.

All bats and their roosts are protected under UK and European legislation. It is an offence to deliberately kill, injure, capture or disturb a bat or to recklessly damage or destroy their breeding sites or resting places.

If works are planned on a building/tree in which bats are found to be roosting, Natural Resources Wales (NRW) must be contacted. on 0300 065 3000 or at <https://naturalresources.wales/permits-and-permissions/species-licensing/apply-for-a-protected-species-licence/bat-licences/?lang=en>.

If work has already commenced and bats are found, or if any evidence that bats are using the site as a roost is found, work should cease and NRW should be contacted immediately.

Under these circumstances, an EPS licence is likely to be required to undertake the works within the law.

2. All birds, their nests and eggs are protected by law under the Wildlife and Countryside Act 1981 (as amended) while they are breeding.

If works to any trees, hedgerows and/or other nesting bird habitat (including buildings with suitable features) are to be undertaken, they will take place outside of the bird nesting season. If the works must be undertaken during the nesting season (generally from 1st March until 31st August, although birds are known to nest outside of these dates in suitable conditions), a breeding bird survey will be required and must be carried out by a suitably qualified ecologist. Any active nests identified will be protected until the young have fledged.

Where a Schedule 1 species (as defined in the Wildlife and Countryside Act - <https://www.legislation.gov.uk/ukpga/1981/69/schedule/1>) is involved, compensation for impacts, e.g., loss of nesting sites, will be devised and implemented.
