

APPENDICES (ES Volume 2)

1.0 Introduction: Planning

- 1.1 Initial Review Schedule of planning conditions: MTCBC
- 1.2 Initial Review Schedule of planning conditions: BBNP
- 1.3 Proposed First Periodic Review Schedule of Conditions: MTCBC
- 1.4 Proposed First Periodic Review Schedule of Planning Conditions: BBNP

6.0 Landscape and Visual Impact Assessment

- 6.1 LVIA Figures 6.1 – 6.9
- 6.2 LVIA Assessment Methodology
- 6.3 LVIA Assessment of Effects

7.0 Ecology

- 7.0 Ecology Figures
- 7.1 Ecology Data Sources
- 7.2 Target Notes Habitat Descriptions
- 7.3 Bat Survey Report
- 7.4 Great Crested Newt Survey Report
- 7.5 Reptile Survey Report
- 7.6 Breeding Bird Survey Report
- 7.7 Great Crested Newt Mitigation Strategy

9.0 Hydrogeological Impact Assessment

- 9.1 HIA Figures 9.1 – 9.28
- 9.2 Flood Consequences Assessment
- 9.3 Groundwater Flow Modelling Report
- 9.4 Borehole Logs
- 9.5 Site Visit Photographs
- 9.6 Technical Note on CBACS
- 9.7 Discharge Permit
- 9.8 Tracer Test and water quality sampling
- 9.9 Impact Assessment Methodology

10.0 Noise

- 10.1 Glossary of acoustic terms
- 10.2 Site plans and assessment / measurement locations
- 10.3 Noise Survey Results: attended sample measurements
- 10.4 Noise survey results: attended sample measurements
- 10.5 'Soundplan' noise mapping assumptions
- 10.6 'Soundplan' noise contour maps
- 10.7 Calculated site noise levels

12.0 Air Quality

- 12.1 Road traffic emissions assessment methodology
- 12.2 Model verification
- 12.3 Road traffic emissions assessment results
- 12.4 Additional model of assessment of new A465 road network
- 12.5 Minerals dust assessment results
- 12.6 Air Quality assessment figures
- 12.7 Dust Management Plan

14.0 Cultural Heritage

- 14.1 Historic Environment Desk Based Assessment (DBA)
