

INTERNAL MEMORANDUM

To: Rebecca Owens - Development Control Case Officer

Reference: P/26/0082

From: Planning Policy and Implementation Section

Ask for: David James

Extension: 7053

Date: 12th May 2026

Summary

No objection raised. The development meets the relevant Replacement LDP policies (SW1, SW3 & SW4).

If minded to approve in principle, particular consideration should be given to the following:

- The impact of the development on the character of the area, in terms of the appropriateness of its design and form to its local context, and how it integrates with the adjacent spaces and buildings;
- the impact on the surrounding area and occupiers in terms of amenity, particularly loss of privacy, noise and disturbance, highway safety, traffic generation and parking provision (Policies SW11, SW12 & EnW4);
- the impact on biodiversity and any relevant Heritage assets (Policies EnW1, EnW2, EnW3 & CW1).

The requirements of Policy SW9 should also be noted.

Observations in respect of the above proposal

1. Proposed Development

An application for the erection of a detached dwelling, raised decking and associated works, at land adjacent to 1 Patricia Close, Fairview Terrace, Twynyrodyn.

2. Development Plan Framework

The existing development plan framework in Merthyr Tydfil is provided by:-

The Merthyr Tydfil County Borough Council Replacement Local Development Plan (2016 - 2031)

The relevant LDP Objectives are:-

- *LDP Objective 1 Sustainable Population Growth: To encourage a sustainable level and distribution of population growth.*
- *LDP Objective 2 Welsh Language and Culture: To protect and enhance Welsh language and culture.*
- *LDP Objective 3 To ensure the sufficient provision of land for the delivery of a range and choice of housing and affordable housing to address local housing needs.*
- *LDP Objective 4 Regeneration: To promote the suitable reuse of previously developed land and the continued regeneration of local communities.*
- *LDP Objective 6 Sustainable Design: To promote high quality, sustainable and inclusive design and support measures which mitigate the predicted effects of climate change.*
- *LDP Objective 7 Transport: To support an integrated transport system, promote active travel and ensure new developments are accessible by walking, cycling and public transport links.*
- *LDP Objective 9 Heritage and Cultural Assets: To protect, enhance and promote all heritage, historic and cultural assets.*
- *LDP Objective 10 Biodiversity: To improve ecosystem resilience and connectivity which support habitats and species of principle importance.*

The following development plan policies would apply:-

- *Policy SW1: Provision of New Homes*
- *Policy SW2: Provision of Affordable Housing*
- *Policy SW3: Sustainably Distributing New Homes*
- *Policy SW4: Settlement Boundaries*
- *Policy SW9: Planning Obligations*
- *Policy SW11: Sustainable Design and Placemaking*
- *Policy SW12: Improving the Transport Network*
- *Policy CW1: Historic Environment*
- *Policy EnW1: Nature Conservation & Ecosystem Resilience*
- *Policy EnW2: Internationally and Nationally Protected Sites and Species*
- *Policy EnW3: Regionally Important Geological Sites, Sites of Importance for Nature Conservation, Local Nature Reserves and Priority Habitats and Species*
- *Policy EnW4: Environmental Protection*

The following supplementary planning guidance is applicable:-

- *Merthyr Tydfil Local Development Plan Supplementary Planning Guidance Note 1: Affordable Housing (March 2012)*
- *Merthyr Tydfil Local Development Plan Supplementary Planning Guidance Note 2: Planning Obligations (March 2012)*
- *Merthyr Tydfil Local Development Plan Supplementary Planning Guidance Note 4: Sustainable Design (July 2013)*
- *Merthyr Tydfil Local Development Plan Supplementary Planning Guidance Note 5: Nature and Development (May 2015)*

National Planning Policy

Planning Policy Wales (Edition 12, February 2024)

Planning Policy Wales provide guidance on matters relevant to this application, namely:

- Placemaking in Action: Good Design Making Better Places
- Strategic Placemaking: Previously Developed Land
- Active and Social Places: Living in a Place
- Distinctive and Natural Places: Recognising the Special Characteristics of Places
- Distinctive and Natural Places: Recognising the Environmental Qualities of Places

Future Wales: The National Plan 2040 (February 2021)

Future Wales provides guidance on matters relevant to this application, including, but not limited to:

- Policy 1: Where Wales will grow
- Policy 2: Shaping Urban Growth and Regeneration – Strategic Placemaking
- Policy 33: National Growth Area – Cardiff, Newport and the Valleys

3. Policy Considerations

It is noted that planning permission for a dwelling has previously been granted on this site, as part of planning application P/19/0120.

The site of the proposal is located within the Primary Growth Area (Policies SW1 and SW3), as defined by the LDP, and within the settlement boundary where development will be allowed subject to the proposals compatibility with other plan policies and material considerations (Policy SW4).

Policy SW1 states that 2250 additional homes are required to sustainably grow our population. The proposal comprises one new residential unit, which would represent a contribution to the 2250 units that are required during the plan period. Furthermore, Policy SW3 states that new homes will be concentrated within the main settlement of Merthyr Tydfil.

Policy SW9 relates to planning obligations. Given that the proposal is for a single dwelling, on-site provision of affordable housing or open space, or a financial contribution towards affordable housing, would not be sought. However, Community Infrastructure Levy (CIL) is chargeable on residential development in this part of the County Borough (at £25 per sq m index linked).

Policy SW11 requires new development to, among other things:

- be appropriate to its local context in terms of scale, height, massing, elevational treatment, materials and detailing, layout, form, mix and density;
- integrate effectively with adjacent spaces, the public realm and historic environment to enhance the general street scene and create good quality townscape;

- not result in an unacceptable impact on local amenity, loss of light or privacy, or visual impact, and incorporate a good standard of landscape design;
- contribute to the provision of green infrastructure, including open space in accordance with the Council's standards, sustainable drainage systems where appropriate, and ensure that the County Borough's network of green infrastructure is accessible and connected;
- allow access for the widest range of people possible, and demonstrate that any traffic movements will not have an unacceptable impact on local amenity or highway safety and satisfy the Council's parking standards.

Considering the location of the application site, in close proximity to existing dwellings, careful consideration should be given to these issues.

Particular consideration should be given to the appropriateness of the development to its local context (particularly in terms of its design), how it integrates with the adjacent spaces, and its impact on local amenity and privacy, as well as its visual impact.

It should be demonstrated that any traffic movements will not have an unacceptable impact on local amenity or highway safety. The submitted plans indicate that the dwelling would have off-street parking provision. As such, the proposed parking provision should be checked against the Council's current parking standards, and the views of the Engineering and Traffic Group Leader should be sought in this respect.

Policy SW12 supports development that encourages a modal shift towards sustainable transport, including the enhancement of pedestrian, cycle, rail and bus facilities, in addition to any necessary road improvements. Development proposals will be expected to demonstrate how they reduce the need to travel and encourage the use of sustainable transport. As such, the views of the Engineering and Traffic Group Leader should be sought in this respect.

Policy CW1 advises that the integrity of our historic environment assets will be conserved and enhanced. Development proposals will only be permitted where it can be demonstrated they would preserve or enhance the architectural quality, character or the historic or cultural importance of our designated historic environment assets. And that, development affecting undesignated historic environment assets including, Locally Listed Buildings or structures, Landscapes of Outstanding Historic Interest in Wales, Urban Character Areas (UCA) and Archaeologically Sensitive Areas should have regard to their special character and archaeological importance.

The site is located within Urban Character Area 3 - Twynyrodyn, including Ysgubor Newydd and Penyrheol, and within a Landscape of Outstanding Historic Interest. As such, these historic environment assets should be taken into consideration, and the views of the relevant Officer and/or external Heritage body sought in this regard.

Policy EnW4 advises that development proposals will be required to demonstrate they will not result in an unacceptable impact on people, residential amenity, property and / or the natural environment from either:

- Pollution of land, surface water, ground water and the air;
- Land contamination;

- Hazardous substances;
- Land stability;
- Noise, vibration, dust, odour nuisance and light pollution; or
- Any other identified risk to public health and safety.

Where impacts are identified the Council will require applicants to demonstrate that appropriate measures have been incorporated to reduce, or minimise the impact identified to the lowest possible acceptable level. Planning conditions may be imposed or legal obligation entered into, to secure any necessary mitigation and monitoring processes. With regard to flood risk, new developments will be expected to avoid unnecessary flood risk and meet the requirements of TAN 15.

As such, the views of the Engineering and Traffic Group Leader and Environmental Health department should be sought in this respect. The Coal Authority should also be consulted, due to potential land instability resulting from historic mining in this area.
