Render (As Specified)  
Anthracite UPVC windows (As Specified)  
Cream Cast Concrete Heads and Cills  
Anthracite UPVC Rainwater Goods  
Anthracite UPVC Fascia and Soffits  
Composite Slate Tiles as Specified

A photograph of a modern three-pane window with a dark frame. A black rainwater pipe runs horizontally above the window. The wall is a light, neutral color. Two small, dark rectangular objects are mounted on the wall, one on each side of the window. The window reflects the surrounding environment, including trees and a building. A small vase with white flowers sits on the windowsill.

**Off White**

**PAREXLANKO**

A close-up photograph of a brick wall, showing the texture and color variations of the bricks and mortar. The bricks are in a standard running bond pattern, with colors ranging from light tan to dark brown. The mortar is a light, off-white color.

Westerland slate has an appearance very close to that of natural slate. Its attractive riven surface and natural dressed edges make it an ideal solution for cost-conscious projects. The 500x243 Westerland is a superb product at a very cost-effective price point.

**Graphite in colour.**

[illegible]
