

This technical drawing illustrates a road intersection with a T-junction. The main road, running vertically, has a central reservation and multiple lanes. A 'Shelter' is located on the left side of the road, near the intersection. A 'HEDGE UTS' (Hedge Uninterrupted Traffic Signal) is marked on the right side. The intersection area is marked with various lane markings, including a 'STOP' line and a 'Yield' line. A 'Hedge UTS' is also marked on the right side of the intersection. The drawing includes a scale bar and a north arrow. The intersection is marked with a 'STOP' line and a 'Yield' line. The drawing includes a scale bar and a north arrow.
