Dear Kate

Thank you for your email seeking HSE's observations on application P/26/0068.

HSE is a statutory consultee for certain developments within the consultation distance of major hazard sites and major accident hazard pipelines, and has provided planning authorities with access to the HSE Planning Advice Web App - <https://pa.hsl.gov.uk/> - for them to use to consult HSE and obtain HSE's advice.

However, this application does not relate to a relevant development on which to consult the HSE Land Use Planning (LUP) Team, as it would not lead to a material increase in the number of people within a consultation distance. There is therefore no need to consult the HSE LUP team on this planning application and the HSE LUP team has no comment to make.

I would be grateful if you would ensure that the HSE Planning Advice Web App is used to consult HSE on any future developments including any which meet the following criteria, and which lie within the consultation distance (CD) of a major hazard site or major hazard pipeline.

- * residential accommodation;
- * more than 250m² of retail floor space;
- * more than 500m² of office floor space;
- * more than 750m² of floor space to be used for an industrial process;
- * transport links;
- * or which is otherwise likely to result in a material increase in the number of persons working within or visiting the notified area.

There are additional areas where HSE is a statutory consultee. For full details, please refer to annex 2 of HSE's Land Use Planning Methodology:

www.hse.gov.uk/landuseplanning/methodology.htm

Regards,

Kathryn Deakin

HSE's Land Use Planning Support Team

For HSE's Land Use Planning Advice Terms and Conditions, please click on the following link [HSE's Planning Advice Web App - Login \(hsl.gov.uk\)](#) and then click on 'terms and conditions'.

The Health and Safety Executive (HSE) is conducting a programme of research to understand the needs of people using their services for Land Use Planning Advice (including HSE's planning advice web app), Hazardous Substances Consent and their related guidance. This helps us create services that work better for the public and for government. Participation is voluntary. If you would like to be informed about opportunities to participate, please read and complete this consent form: <https://forms.office.com/e/twNqwPkE9x>. If you need a different format or have questions about this research, please contact the user research team on LUPuserresearch@hse.gov.uk and we will do our best to help. Thank you.
