| | Treatment works | | Private Sewer Transfer |
| | Pumping station | | Lateral Drain |
| | Combined | | Inspection Chamber |
| | Surface Water | | |
| | Foul | | |
| | Former S24 sewers (for indicative purposes only) | | |

NB: Sewer symbol colour indicates the type.

Notes:

Whilst every reasonable effort has been taken to correctly record the pipe material of DCWW assets, there is a possibility that in some cases pipe material (other than Asbestos Cement or Pitch Fibre) may be found to be asbestos cement (AC) or Pitch Fibre (PF). It is therefore advisable that the possible presence of AC or PF pipes be anticipated and considered as part of any risk assessment prior to excavation.

Dŵr Cymru Cylindref (the Company) gives this information as to the position of its underground apparatus by way of general guidance only and on the understanding that it is based on the best information available and is not warranted as to its correctness in the event of excavations or other works made in the vicinity of the company's apparatus. The error of location of apparatus facilities carrying out any excavations will be entirely on you. The information which is supplied by the Company is given so in accordance with statutory requirements of sections 103 and 109 of the Water Industry Act 1991 which is based upon the best information available and, in particular, but without prejudice to the generality of the foregoing, it should be noted that the records that are available to the Company may not include the existence of water mains, service pipes, drains, lateral drains or disposal pipes and any associated apparatus (as defined in Section 109(1)(b) of the Water Industry Act 1991) which are not shown on the records. It must be understood that the furnishing of this information is entirely without prejudice to the provisions of the New Roads and Street Works Act 1991 and the Company's liability to be compensated for any damage to be anticipated.

**EXACT LOCATIONS OF ALL APPARATUS
TO BE DETERMINED ON SITE.**
