Subject: RE: Updated drawings for the Carports in Merthyr Tydfil

Hi Kate,

Thank you for the detailed reply. I'm happy to withdraw the application and submit the pre-app, and will try to get the pre-app submitted tomorrow at the latest. What is the process to withdraw the application – is that something you can do off the back of this confirmation by email, or do I need to do anything?

Just a quick update on some of the points below:

- We can submit some photomontages and the elevation drawings of the feeder pillar, and will get on with that once the pre-app is submitted.
- We will get the written conformation from Highways about the loss of one parking space. We had confirmation verbally from the car park manager that this was acceptable, but will sort out the written confirmation.
- We will be completing some ground investigation works shortly, and the results of

this will feed-into the foundation design for the main supports. Once this is completed, our intention was to submit that as part of a Building Control application, so the information your Engineering Team would like to see will be forthcoming.

If you could let me know if I need to do anything further to withdraw the application, and in the meantime I'll get on with the pre-app.

Regards,

Phil
