

Green infrastructure statement

Proposed Driveway At Front of Property

Colliery Cottage, Anthony Grove, Abercanaid,

Merthyr Tydfil, CF48 1YU

April 2026

The existing garden currently benefits from trees, hedges & shrubs

The proposed driveway will result in a loss of some trees, hedges & shrubs

As a net gain for biodiversity, the following additions will be implemented:-

**‘Lavender Lavandula angustifolia’ plants to be planted
within the front garden**

Hawthorn Native species hedging to end of driveway
(see proposed layout below for location)

Hazel Native species hedging to end of driveway
(see proposed layout below for location)

Apple trees in private garden grove
(see proposed layout below for location)

Pear trees in private garden grove
(see proposed layout below for location)

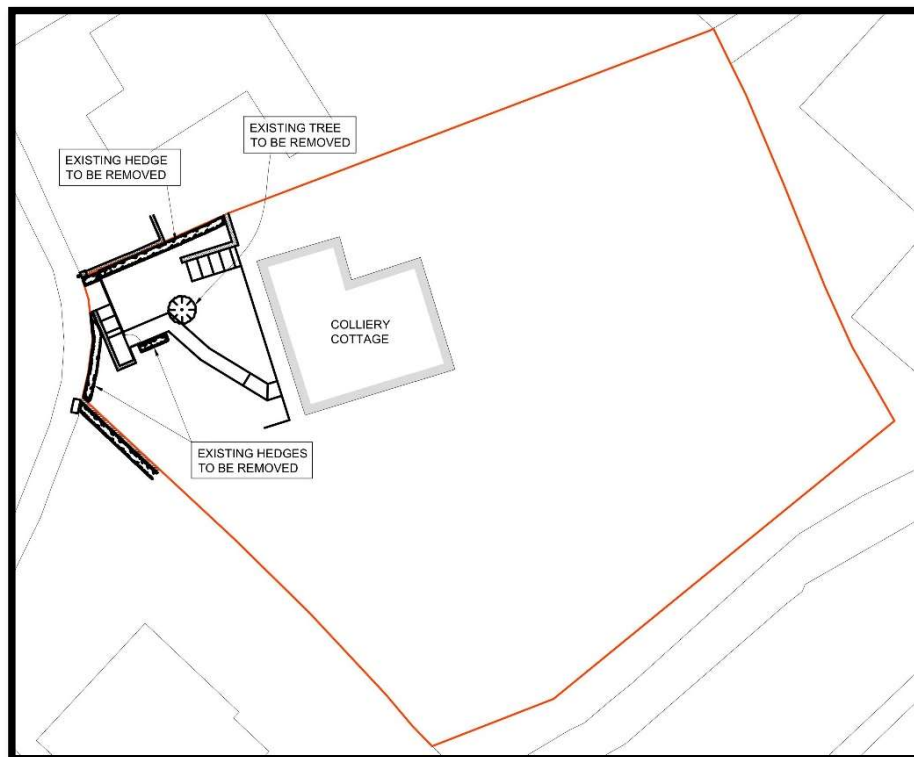

Plum trees in private garden grove
(see proposed layout below for location)

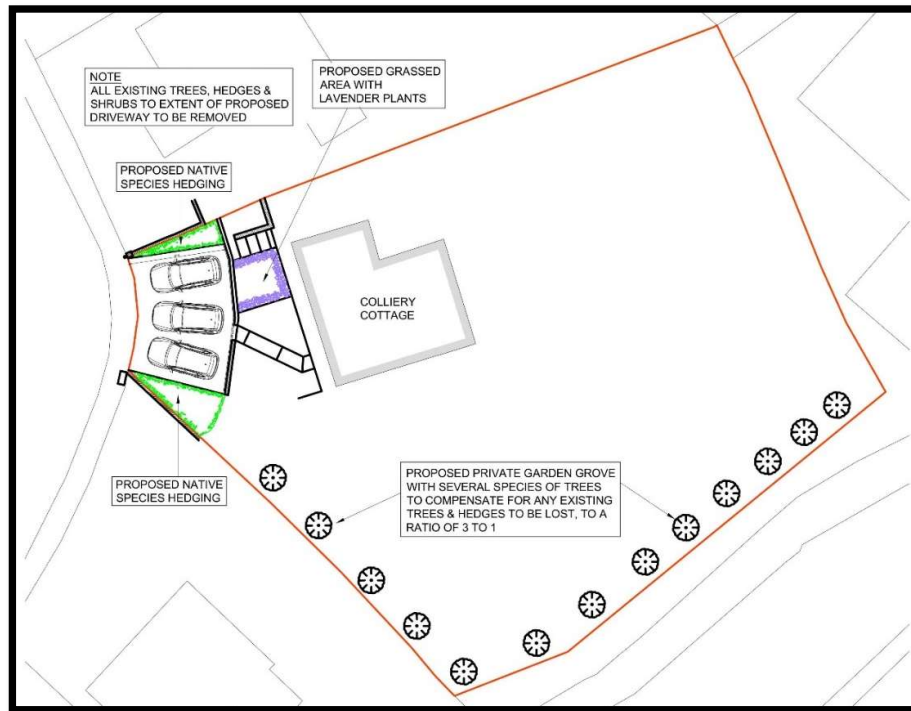

Oak trees in private garden grove
(see proposed layout below for location)

**Hawthorn trees in private garden grove
(see proposed layout below for location)**

Existing Layout showing loss of trees & hedges

Proposed Layout showing biodiversity enhancement
