Dear Miss Grant

RE: Discharge of condition 16 (Japanese Knotweed Strategy) of planning permission P/23/0131 relating to a new school building

I write in regards to the above mentioned application and the supporting information provided, which includes an Invasive Non-Native Plant Species Control Plan – Works Description

Condition 16: Japanese Knotweed Strategy

The above mentioned strategy prepared by EcoVigour has been reviewed and it is noted that three main areas of Knotweed have been identified, which would all be treated on site. It is acknowledged that invasive species found in areas 2 and 3 and part of area 1 would be excavated and placed in an existing contaminated area where it would then be treated. It is considered that the programme of works and 5 year treatment plan is acceptable. Additionally, it is noted that a verification report would be provided following the completion of the works.

Accordingly, the requirements of conditions 16 of planning permission P/23/0131 can now be discharged, subject to the works being completed in accordance with the approved details. I have enclosed an updated planning permission, which reflect this decision.

Yours sincerely

JUDITH JONES
