As the MDU extension would be located within the hospital site, and the Proposed Development is compatible with relevant plan policies, and material considerations, "the Proposed Development could therefore be acceptable in principle".

The flat roof of the Proposed Development would not normally be welcomed or supported, but given that the MDU extension would have a similar design, and be finished in similar materials to the adjoining Emergency Care Centre, and only a section of the MDU extension would meet the height of the adjoining Emergency Care Centre, the MDU extension would result in a "sympathetic and proportionate addition to the existing hospital".

Due to the scale and use of the MDU extension "it would not have a significant adverse impact on adjoining premises/properties".

As the MDU extension would not accommodate additional members of staff, and replacement ambulance bays would be provided, the Proposed Development would not have a significant impact on ambulance operations, or increase the demand for on-site parking.
