

INTERNAL MEMORANDUM

To: Kate Glover - Development Control Case Officer

Reference: P/26/0146

From: Planning Policy and Implementation Section

Ask for: David James

Extension: 7053

Date: 28th July 2026

Summary

No objection raised. The development meets the relevant Replacement LDP policies (SW4, & EcW2).

If minded to approve in principle, particular consideration should be given to the impact of the development on the character of the Rhydycar Business Park and the surrounding area and the amenity occupiers in terms of loss of privacy, noise and disturbance, traffic generation and parking provision (Policies SW11, SW12 & EnW4). Consideration should also be given to the impact on any relevant historic environment assets (Policy CW1), and the impact on biodiversity (Policies EnW1, EnW2 & EnW3).

Observations in respect of the above development

1. Proposed Development

An application for the installation of battery energy storage systems (BESS) and associated external plant equipment within the existing plant compound, to include the erection of replacement enclosures and associated works, at Welsh Assembly Government, Rhydycar Business Park, Merthyr Tydfil.

2. Development Plan Framework

The existing development plan framework in Merthyr Tydfil is provided by:-

The Merthyr Tydfil County Borough Council Replacement Local Development Plan (2016 - 2031)

The relevant LDP Objectives are:-

- *LDP Objective 1 Sustainable Population Growth: To encourage a sustainable level and distribution of population growth.*
- *LDP Objective 2 Welsh Language and Culture: To protect and enhance Welsh language and culture.*

- *LDP Objective 4 Regeneration: To promote the suitable reuse of previously developed land and the continued regeneration of local communities.*
- *LDP Objective 6 Sustainable Design: To promote high quality, sustainable and inclusive design and support measures which mitigate the predicted effects of climate change.*
- *LDP Objective 7 Transport: To support an integrated transport system, promote active travel and ensure new developments are accessible by walking, cycling and public transport links.*
- *LDP Objective 9 Heritage and Cultural Assets: To protect, enhance and promote all heritage, historic and cultural assets.*
- *LDP Objective 10 Biodiversity: To improve ecosystem resilience and connectivity which support habitats and species of principle importance.*
- *LDP Objective 12 Economic Development: To provide and safeguard appropriate land for economic and skills development.*

The following development plan policies would apply:-

- *Policy SW4: Settlement Boundaries*
- *Policy SW9: Planning Obligations*
- *Policy SW11: Sustainable Design and Placemaking*
- *Policy SW12: Improving the Transport Network*
- *Policy CW1: Historic Environment*
- *Policy EnW1: Nature Conservation and Ecosystem Resilience*
- *Policy EnW2: Internationally and Nationally Protected Sites and Species*
- *Policy EnW3: Regionally Important Geological Sites, Sites of Importance for Nature Conservation, Local Nature Reserves and Priority Habitats and Species*
- *Policy EnW4: Environmental Protection*
- *Policy EcW2: Protecting Employment Sites*

The following supplementary planning guidance is applicable:-

- *Merthyr Tydfil Local Development Plan Supplementary Planning Guidance Note 2: Planning Obligations (March 2012)*
- *Merthyr Tydfil Local Development Plan Supplementary Planning Guidance Note 4: Sustainable Design (July 2013)*
- *Merthyr Tydfil Local Development Plan Supplementary Planning Guidance Note 5: Nature and Development (May 2015)*

National Planning Policy

Planning Policy Wales (Edition 12, February 2024)

Planning Policy Wales provide guidance on matters relevant to this application, namely:

- Placemaking in Action: Good Design Making Better Places
- Strategic Placemaking: Previously Developed Land
- Economic Infrastructure: Economic Development
- Recognising the Special Characteristics of Places
- Recognising the Environmental Qualities of Places

Technical Advice Notes (TANs)

TAN 12: Design (March 2016)

TAN 23: Economic Development (February 2014)

Future Wales: The National Plan 2040 (February 2021)

Future Wales provides guidance on matters relevant to this application, including, but not limited to:

- Policy 1: Where Wales will grow
- Policy 2: Shaping Urban Growth and Regeneration – Strategic Placemaking
- Policy 8: Flooding
- Policy 33: National Growth Area – Cardiff, Newport and the Valleys

3. Policy Considerations

The site of the proposal is located within:

- the Primary Growth Area, as defined by the LDP;
- Rhydyar Business Park Protected Employment Site (Policy EcW2);
- the settlement boundary where development will be allowed subject to the proposals compatibility with other plan policies and material considerations (Policy SW4).

Policy SW9 relates to planning obligations. However, given the nature of the proposal, on-site provision of affordable housing or open space, or a financial contribution towards affordable housing, would not be sought. Additionally, Community Infrastructure Levy (CIL) would not be chargeable.

Policy SW11 advises that development must contribute to the creation of attractive and sustainable places through high quality, sustainable and inclusive design. Where appropriate, new development will be required to (amongst other things):

- be appropriate to its local context in terms of scale, height, massing, elevational treatment, materials and detailing, layout, form, mix and density;
- integrate effectively with adjacent spaces, the public realm and historic environment to enhance the general street scene and create good quality townscape;
- not result in an unacceptable impact on local amenity, loss of light or privacy, or visual impact, and incorporate a good standard of landscape design;
- allow access for the widest range of people possible, and demonstrate that any traffic movements will not have an unacceptable impact on local amenity or highway safety and satisfy the Council's parking standards.
- incorporate resource efficient/adaptable buildings and layouts using sustainable design and construction techniques;
- minimise the demand for energy and utilise renewable energy resources;

- provide and protect relevant utility services and infrastructure without causing any unacceptable environmental impacts;
- incorporate measures to improve ground and surface water quality wherever possible;
- provide adequate facilities and space for waste collections and recycling.
- promote the creation of healthy and active environments and reduce the opportunity for crime and anti-social behaviour.

Considering the nature of the development, and the location of the site (in close proximity to existing commercial and public uses) consideration should be given to the above issues, and the views of the Council's Environmental Health should be sought as appropriate. The proposed parking provision should be checked against the Council's current parking standards, and the views of the Engineering and Traffic Group Leader should be sought in this respect.

Policy SW12 supports development that encourages a modal shift towards sustainable transport, including the enhancement of pedestrian, cycle, rail and bus facilities, in addition to any necessary road improvements. Developments will be expected to demonstrate how they reduce the need to travel and encourage the use of sustainable transport. As such, the views of the Engineering and Traffic Group Leader should be sought in this respect.

Policy CW1 advises that the integrity of our historic environment assets will be conserved and enhanced. Development proposals will only be permitted where it can be demonstrated they would preserve or enhance the architectural quality, character or the historic or cultural importance of our designated historic environment assets. And that, development affecting undesignated historic environment assets including, Locally Listed Buildings or structures, Landscapes of Outstanding Historic Interest in Wales, Urban Character Areas and Archaeologically Sensitive Areas should have regard to their special character and archaeological importance.

The site is located within UCA 9 (West Merthyr, including Heolgerrig and Gellideg), and within a Landscape of Outstanding Historic Interest in Wales. As such, these and any other relevant historic environment assets should be taken into consideration, and the views of the relevant Officer or external Heritage body sought in this regard, as appropriate.

Policies EnW1, EnW2 and EnW3 seek to protect biodiversity and internationally and regionally important sites and species, respectively.

As such, the views of the Council's Ecologist should be sought as appropriate.

Policy EnW4 advises that development proposals will be required to demonstrate they will not result in an unacceptable impact on people, residential amenity, property and / or the natural environment from either:

- Pollution of land, surface water, ground water and the air;
- Land contamination;
- Hazardous substances;
- Land stability;
- Noise, vibration, dust, odour nuisance and light pollution; or
- Any other identified risk to public health and safety.

Where impacts are identified the Council will require applicants to demonstrate that appropriate measures have been incorporated to reduce, or minimise the impact identified to the lowest possible acceptable level. Planning conditions may be imposed or legal obligation entered into, to secure any necessary mitigation and monitoring processes. Policy Enw4 seeks to protect against negative environmental impacts. As such, the views of the Environmental Health department should be sought as appropriate.

The area of the proposed works is within Flood Zones 2 and 3 (Surface Water and Small Watercourses). As such, an FCA should be submitted and NRW consulted as appropriate. However, the nature of the works may not necessitate this.

Policy EcW2 states that in order to protect the employment function of the County Borough's business and employment sites, development will be permitted at Rhydyar Business Park where:-

- it falls within Use Class B1; or
- it provides an ancillary facility or service that supports the primary employment use.

The proposal is for the installation of battery storage systems and associated plant and enclosures, in relation to the existing B1 use of the site. The proposal would therefore meet the first criteria above, and comply with Policy EcW2.
