Dear Mr Gregory

RE: Discharge of condition 9 (Non-native Invasive Species Strategy) of planning permission P/24/0133.

I write in regard to the above mentioned application and the supporting information provided, which includes a Japanese Knotweed Method Statement.

Condition 9 – Non-native Species Strategy

The submitted statement outlines the approach to eradicate any knotweed identified within the site by means of multi-year treatment programme through targeted herbicide application. The method statement also sets out the precautionary measures that would be put in place to ensure the invasive species is not spread to other areas. The method statement is deemed to be acceptable.

Accordingly, the requirements of condition 9 of planning permission P/24/0133 can now be discharged, subject to the works being completed in accordance with the approved method statement. I have enclosed an updated planning permission, which reflects this decision.

Yours sincerely

JUDITH JONES
DIRECTOR OF NEIGHBOURHOOD SERVICES
