

**Bird Box**  
Type: WoodStone bird box.  
Location: North or west-facing elevation of a mature tree.  
Height: Between 3–5 metres above ground level.  
Orientation: Sheltered from prevailing winds and direct sunlight.  
Attachment: Fixed using non-invasive straps or screws into wooden structures.

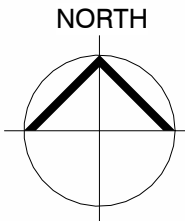

**Bat Box**  
Type: Schwegler 2F Bat Tube, suitable for small maternity roosts.  
Location: 1 metre down and 1 metre to the left of the south-eastern gable end of the building.  
Height: Minimum of 4 metres above ground level.  
Orientation: West facing.  
Attachment: Integrated into stone wall

**Dark Route:**  
A bat box will be integrated into the western elevation of the main house to support bat conservation by providing a dark, undisturbed route from the roost to adjacent tree-lined and landscaped areas. This location avoids direct illumination and connects to suitable commuting and foraging habitat, enhancing ecological connectivity.

No external lighting proposed on the west side of the property to ensure that the bird and bat box are not be directly illuminated.

**PROPOSED SITE LOCATION PLAN**  
1 : 1250
