

## Landscape Management Plan - Year 1 - 5

| Specimen Tree Planting                                                                               | 1  | 2  | 3  | 4  | 5  | 6  |
|------------------------------------------------------------------------------------------------------|----|----|----|----|----|----|
| Remove all litter and debris                                                                         | 4  | 4  | 4  | 4  | 4  | 20 |
| Inspect and adjust stakes, guards and ties. Replace any broken stakes, guards and ties as necessary. | 4  | 4  | 4  | 4  | 4  | 20 |
| Re-firm plants                                                                                       | 4  | 4  | 4  | 4  | 4  | 20 |
| Remove stakes, guards and ties. Fill stake holes.                                                    | 0  | 0  | 0  | 0  | 1  | 1  |
| Control of invasive and undesirable weed species                                                     | 3  | 3  | 3  | 3  | 3  | 15 |
| Top up bark mulch to a minimum of 75mm depth                                                         | 1  | 1  | 1  | 1  | 1  | 5  |
| Formative pruning                                                                                    | 1  | 1  | 1  | 1  | 1  | 5  |
| Record any dead plant material                                                                       | 4  | 4  | 4  | 4  | 4  | 20 |
| Report any notable pests and diseases as necessary                                                   | 0  | 0  | 0  | 0  | 0  | 0  |
| Removal and replacement of failed/failing plants                                                     | 0  | 0  | 0  | 0  | 0  | 0  |
| Irrigate as necessary                                                                                | 0  | 0  | 0  | 0  | 0  | 0  |
| Hedgerow Planting                                                                                    |    |    |    |    |    |    |
| Remove all litter and debris                                                                         | 4  | 4  | 4  | 4  | 4  | 20 |
| Inspect and adjust stakes and guards. Replace broken stakes and guards as necessary.                 | 4  | 4  | 4  | 4  | 4  | 20 |
| Re-firm plants                                                                                       | 4  | 4  | 4  | 4  | 4  | 20 |
| Remove stakes and guards                                                                             | 0  | 0  | 0  | 0  | 1  | 1  |
| Control of invasive and undesirable weed species                                                     | 3  | 3  | 3  | 3  | 3  | 15 |
| Bark mulch top-up                                                                                    | 1  | 1  | 1  | 1  | 1  | 5  |
| Trim hedgerows/formative pruning                                                                     | 1  | 1  | 1  | 1  | 1  | 5  |
| Record any dead plant material                                                                       | 4  | 4  | 4  | 4  | 4  | 20 |
| Removal and replacement of failed/failing plants                                                     | 0  | 0  | 0  | 0  | 0  | 0  |
| Irrigate as necessary                                                                                | 0  | 0  | 0  | 0  | 0  | 0  |
| Ornamental Planting Bed                                                                              |    |    |    |    |    |    |
| Herbaceous Cut-back                                                                                  | 0  | 0  | 0  | 0  | 0  | 0  |
| Control of invasive and undesirable weed species                                                     | 8  | 8  | 8  | 8  | 8  | 40 |
| Shrub Pruning                                                                                        | 0  | 4  | 4  | 4  | 4  | 16 |
| Bark mulch top-up                                                                                    | 0  | 3  | 3  | 3  | 3  | 12 |
| Deadheading                                                                                          | 0  | 0  | 0  | 0  | 0  | 0  |
| Dividing Perennials                                                                                  | 0  | 0  | 0  | 0  | 0  | 0  |
| Irrigate as necessary                                                                                | 0  | 0  | 0  | 0  | 0  | 0  |
| Amenity Grassland                                                                                    |    |    |    |    |    |    |
| Mowing (Fornightly)                                                                                  | 16 | 16 | 16 | 16 | 16 | 80 |
| Edge trimming                                                                                        | 5  | 5  | 5  | 5  | 5  | 25 |
| Leaf Clearance                                                                                       | 0  | 0  | 0  | 0  | 0  | 0  |
| Weed Control                                                                                         | 4  | 4  | 4  | 4  | 4  | 20 |
| Irrigate as necessary                                                                                | 0  | 0  | 0  | 0  | 0  | 0  |
| Species-Rich Grassland                                                                               |    |    |    |    |    |    |
| Remove all litter and debris                                                                         | 4  | 4  | 4  | 4  | 4  | 20 |
| Establishment cuts and removal of arisings                                                           | 4  | 0  | 0  | 0  | 0  | 4  |
| Subsequent cuts and removal of arisings                                                              | 0  | 1  | 1  | 1  | 1  | 4  |
