Annwyl Syr/Madam / Dear Sir/Madam,

BWRIAD / PROPOSAL: CHANGE OF USE TO RESTAURANT AT GROUND FLOOR TO INCLUDE EXTERNAL ALTERATIONS AT 56

LLEOLIAD / LOCATION: 57 GLEBELAND STREET AND 119 HIGH STREET MERTHYR TYDFIL CF47 8AT

Thank you for consulting Cyfoeth Naturiol Cymru / Natural Resources Wales about the above, which we received on 29/07/2021.

We have no objection to the proposed development as submitted and provide the following advice.

Flood Risk

Our Flood Risk Map confirms the application site lies entirely within Zone C2 of the Development Advice Maps (DAM) as contained in TAN15.

Given the nature of the proposed development (whereby the vulnerability will not change and will remain as less vulnerable), and in the absence of a flood consequences assessment, we consider the proposals could be acceptable, subject to the developer being made aware of the potential flood risks and advised to install flood-proofing measures as part of the development.

In areas at risk of flooding, we recommend that consideration be given to the incorporation of flood resistance/resilience measures into the design and construction of the development. These could include flood barriers on ground floor doors, windows and access points, implementation of suitable flood proofing measures to the internal fabric of the ground floor and locating electrical sockets/components at a higher level above possible flood levels.

We refer the applicant to our [website](#) for further advice and guidance available. Additional guidance including the leaflet “Prepare your Property for flooding” can be found [here](#).

The developer can also access advice and information on protection from flooding from the ODPM publication ‘Preparing for Floods: Interim Guidance for Improving the Flood Resistance of Domestic and Small Business Properties’, can be found [here](#)

Foul Drainage

No information has been provided regarding the disposal of foul waters from the proposed development. We refer you to Welsh Government Circular 008/2018 on the use of private sewerage in new developments, and specifically paragraphs 2.3-2.5, which stress the first presumption must be to provide a system of foul drainage discharging into a public sewer. We advise you that the proposed development is in a publicly sewered area.

Please consult us again if foul sewage from the proposed development is to be disposed of by a private sewerage system.

Other Matters

Our comments above only relate specifically to matters included on our checklist, *Development Planning Advisory Service: Consultation Topics* (September 2018), which is published on our [website](#). We have not considered potential effects on other matters and do not rule out the potential for the proposed development to affect other interests.

We advise the applicant that, in addition to planning permission, it is their responsibility to ensure they secure all other permits/consents/licences relevant to their development. Please refer to our [website](#) for further details.

If you have any queries on the above, please do not hesitate to contact us.

Yn gywir / Yours faithfully

Charlotte Morgan
