Eco Rocket Bat Box

SKU:B1ERBZZZZ

Construction: Recycled plastic shell; FSC® wood
OSB roost chamber

Options: Cavity or crevice roost chamber
4m, 5m or 6m pole

Usage: Provides bats with a roost site when
there is no suitable building or tree
on which to mount a bat box. Ideal
for use in mitigation projects.

Crevice roost chamber provides
roost space for crevice dwelling
bats such as Common Pipistrelle,
Soprano Pipistrelle and
Barbastelle's. Cavity roost chamber
suitable for cavity-dwelling bats
including Brown Long-Eared,
Daubenton's, Natterer's,
Bechstein's, Grey Long-Eared,
Whiskered, Brandt's and
Nathusius' Pipistrelle bats.

Maintenance: Eco Rocket Bat Box is
maintenance free as droppings fall
out of base. Recycled plastic shell is
UV stabilized requiring no
treatment.

Installation: Pole and base plate set into
concrete /hardcore to a suitable
depth depending on ground
conditions.
