About this product

The Vivara Pro Build-in WoodStone Bat Box has been specifically designed to fit into the cavity of house walls. It features a slim sized entrance hole which can sit flush in a course of bricks to provide a discreet entry way for bats. It is manufactured from hard-wearing WoodStone and plywood with removable side panels so that several boxes can be placed side by side. Position the box at least 2m above ground level away from artificial light sources. WoodStone is a mixture of sawdust from FSC wood sources and concrete, and it is designed to last for years. It is breathable so there will be no problems with condensation and Woodstone maintains a consistent temperature inside, providing excellent insulation for roosting bats.

Dimensions: (H) 500 x (W) 210 x (D) 150mm, Weight: 5.6kg

Specification

- * Height: 500mm
- * Width: 210mm
- * Depth: 150mm
- * Weight: 5.6kg
- * Material: WoodStone
