16th November 2021

Dear Sir

Re: Replace front windows and door
12 Nightingale Street, Abercanaid, Merthyr Tydfil
Pl.App.No.: P/21/0350

Thank you for consulting us about this application; consequently we have reviewed the detailed information contained on your website.

The information in the Historic Environment Record curated by this Trust indicates that 12 Nightingale Street is a Grade II Listed Building (Cadw ref. 81738), a house in a terrace and part of the important early group of industrial housing at Abercanaid that originally included seven terraces in four rows. The houses were built between 1852 and 1861 possibly by the Plymouth Iron Company to house workers employed at the Abercanaid Pit and Pentrebach Forge. It was Listed as one of the best surviving groups of early industrial workers' housing in the region.

However, the current application is to replace the windows and door and therefore it is unlikely that significant archaeological remains will be encountered during the course of the proposal.

As a result, there is unlikely to be an archaeological restraint to this proposed development and consequently, as the archaeological advisors to your Members, we have no objections to the positive determination of this application. The record is not definitive, however, and features may be disturbed during the course of the work. In this event, please contact this division of the Trust.

If you have any questions or require further advice on this matter please do not hesitate to contact us.

Yours faithfully

R. Dunning
