1.0 INTRODUCTION

This parking survey was carried out in support of the Transportation Statement (document 2513RPT001 Rev 0) which was issued earlier and concluded that parking provision should not be an obstacle to obtaining Planning Approval.

2.0 PARKING SURVEY

Photos were taken as follows showing the car parking immediately outside No 6 Cardiff Road.

3.0 DISCUSSION

The survey, carried out over one week shows that there is generally no lack of parking places in the immediate vicinity and that the possible addition of three additional cars can easily be accommodated. In view of the free spaces available, parking issues should not be an obstacle to Planning Approval.
